

PLAYBOY'S BOOK OF

LINGERIE

NOVEMBER DECEMBER 1995

\$6.95

The aliens drooled over the original Barbarella, but you don't need to be from outer space to lose it over Chloe Jones (here and preceding pages). She struts her stuff in an updated version of the futuristic fantasy.

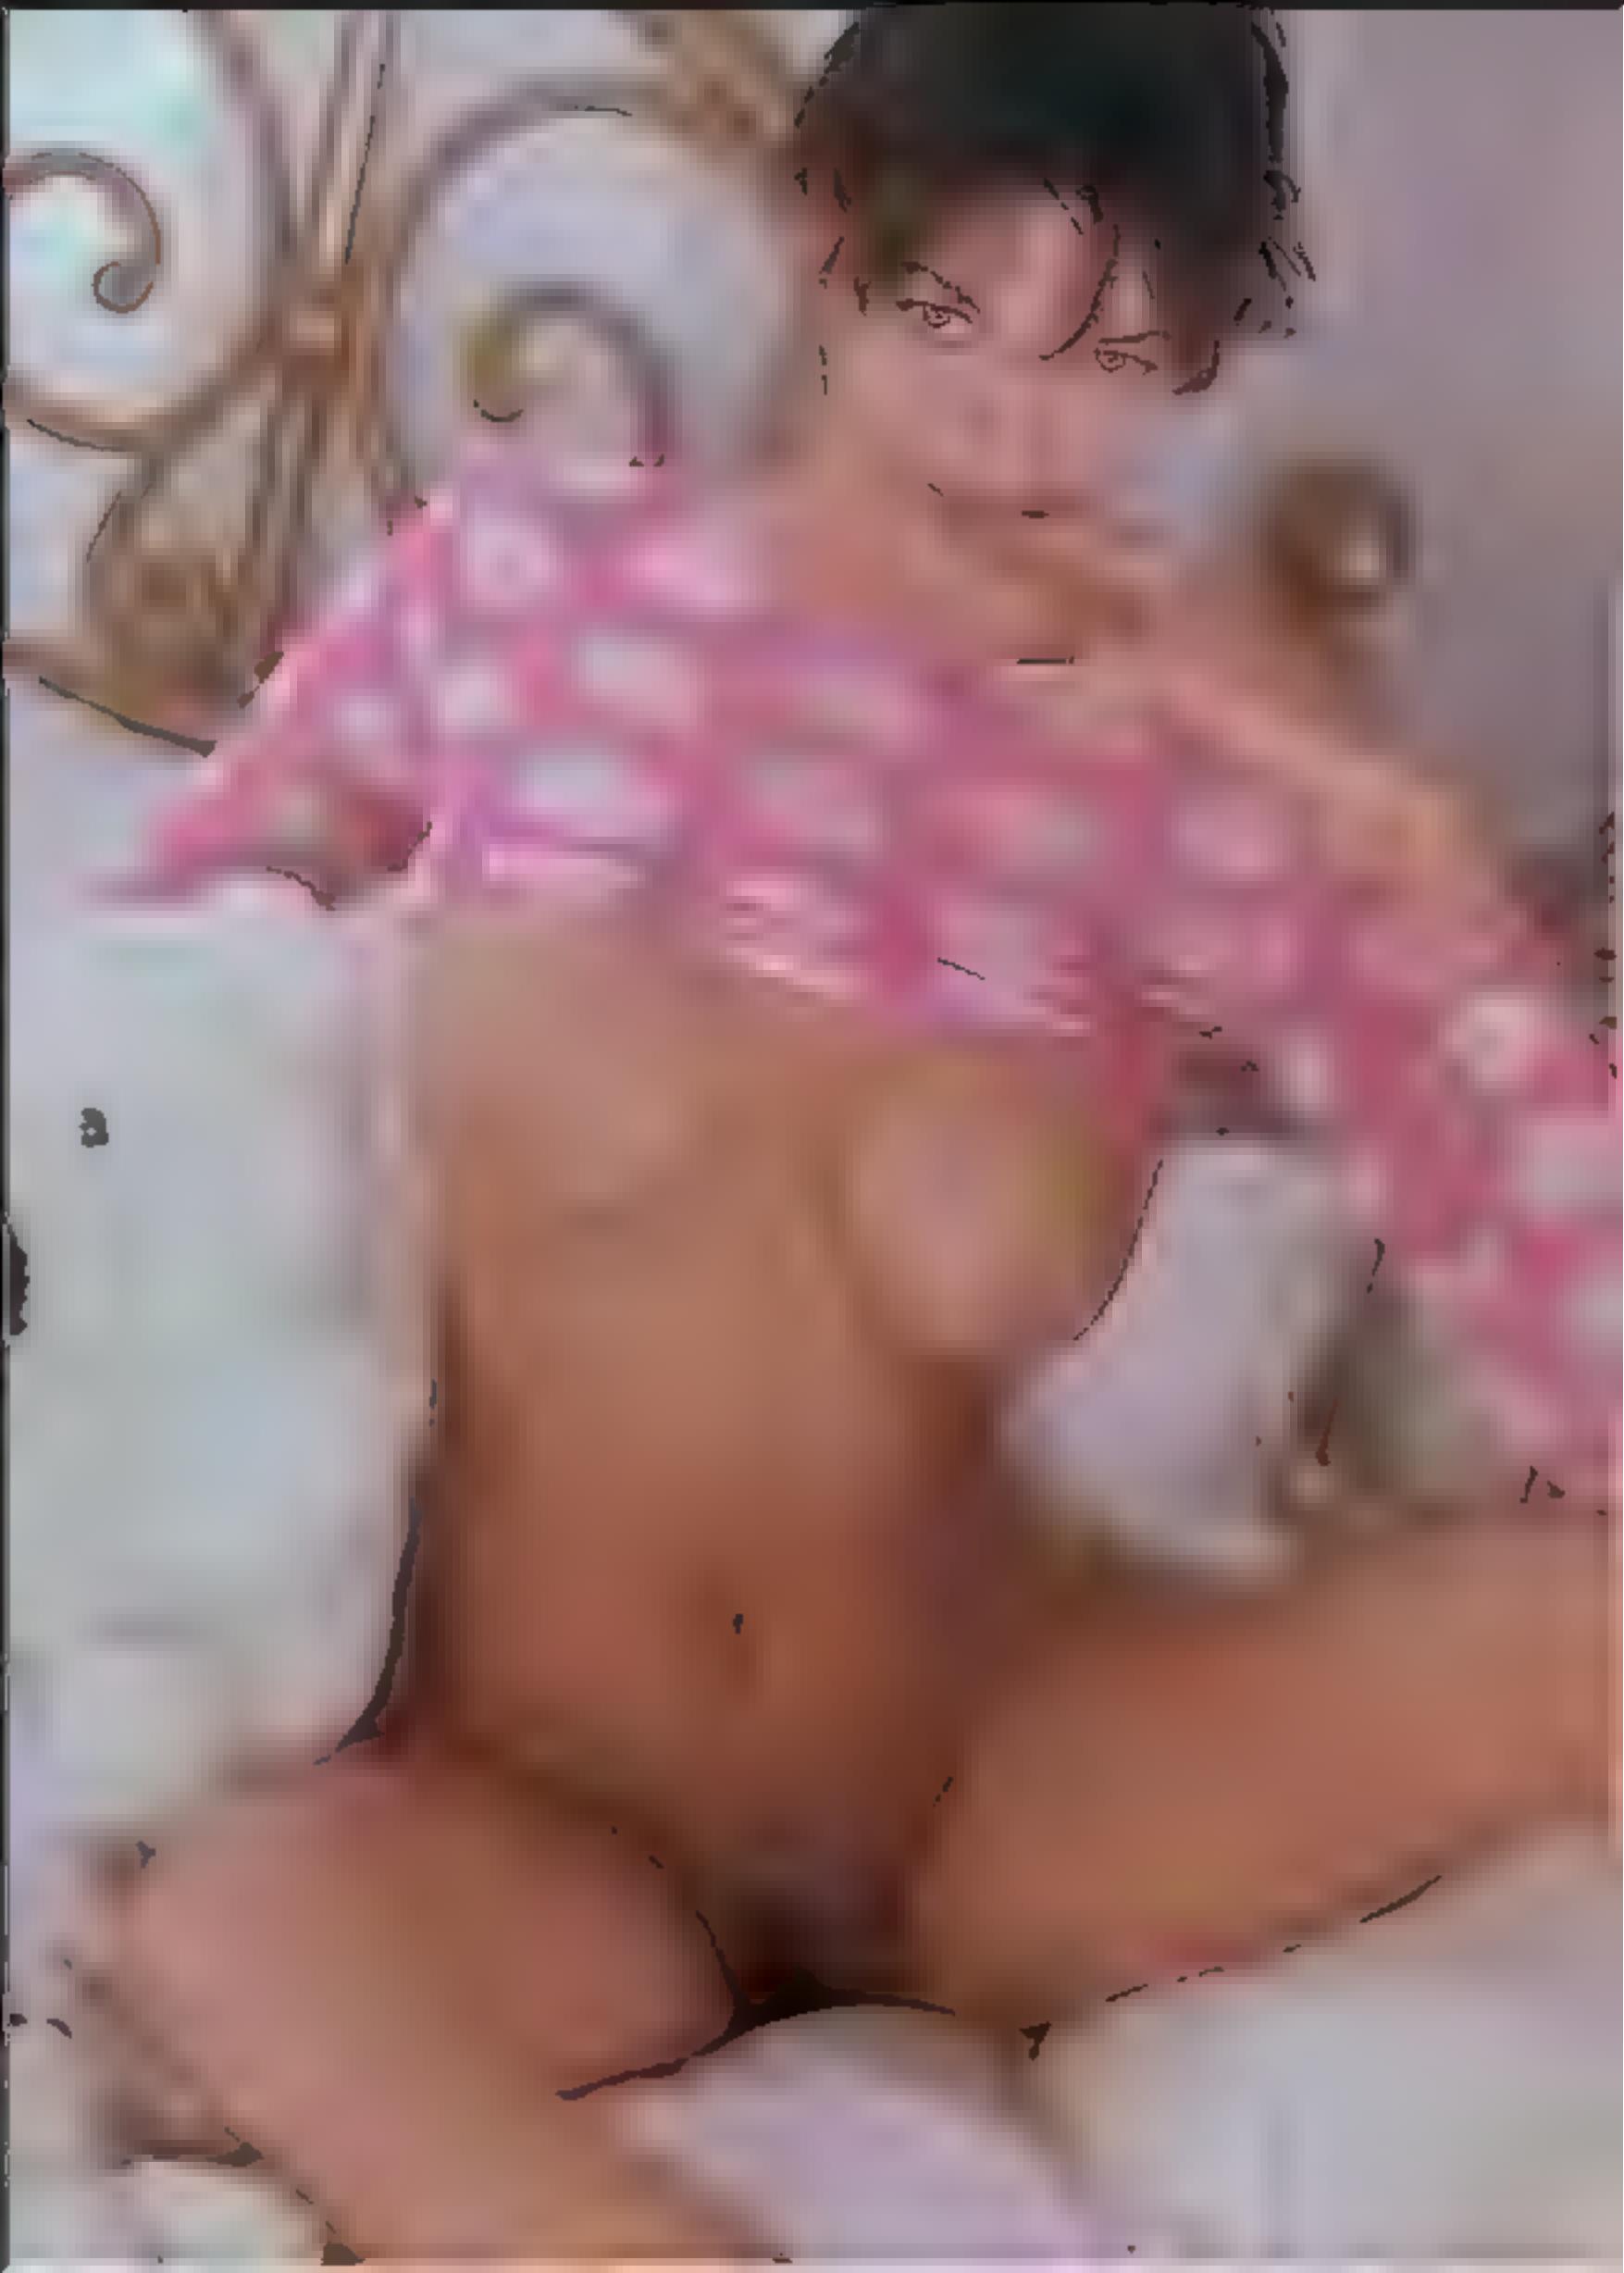

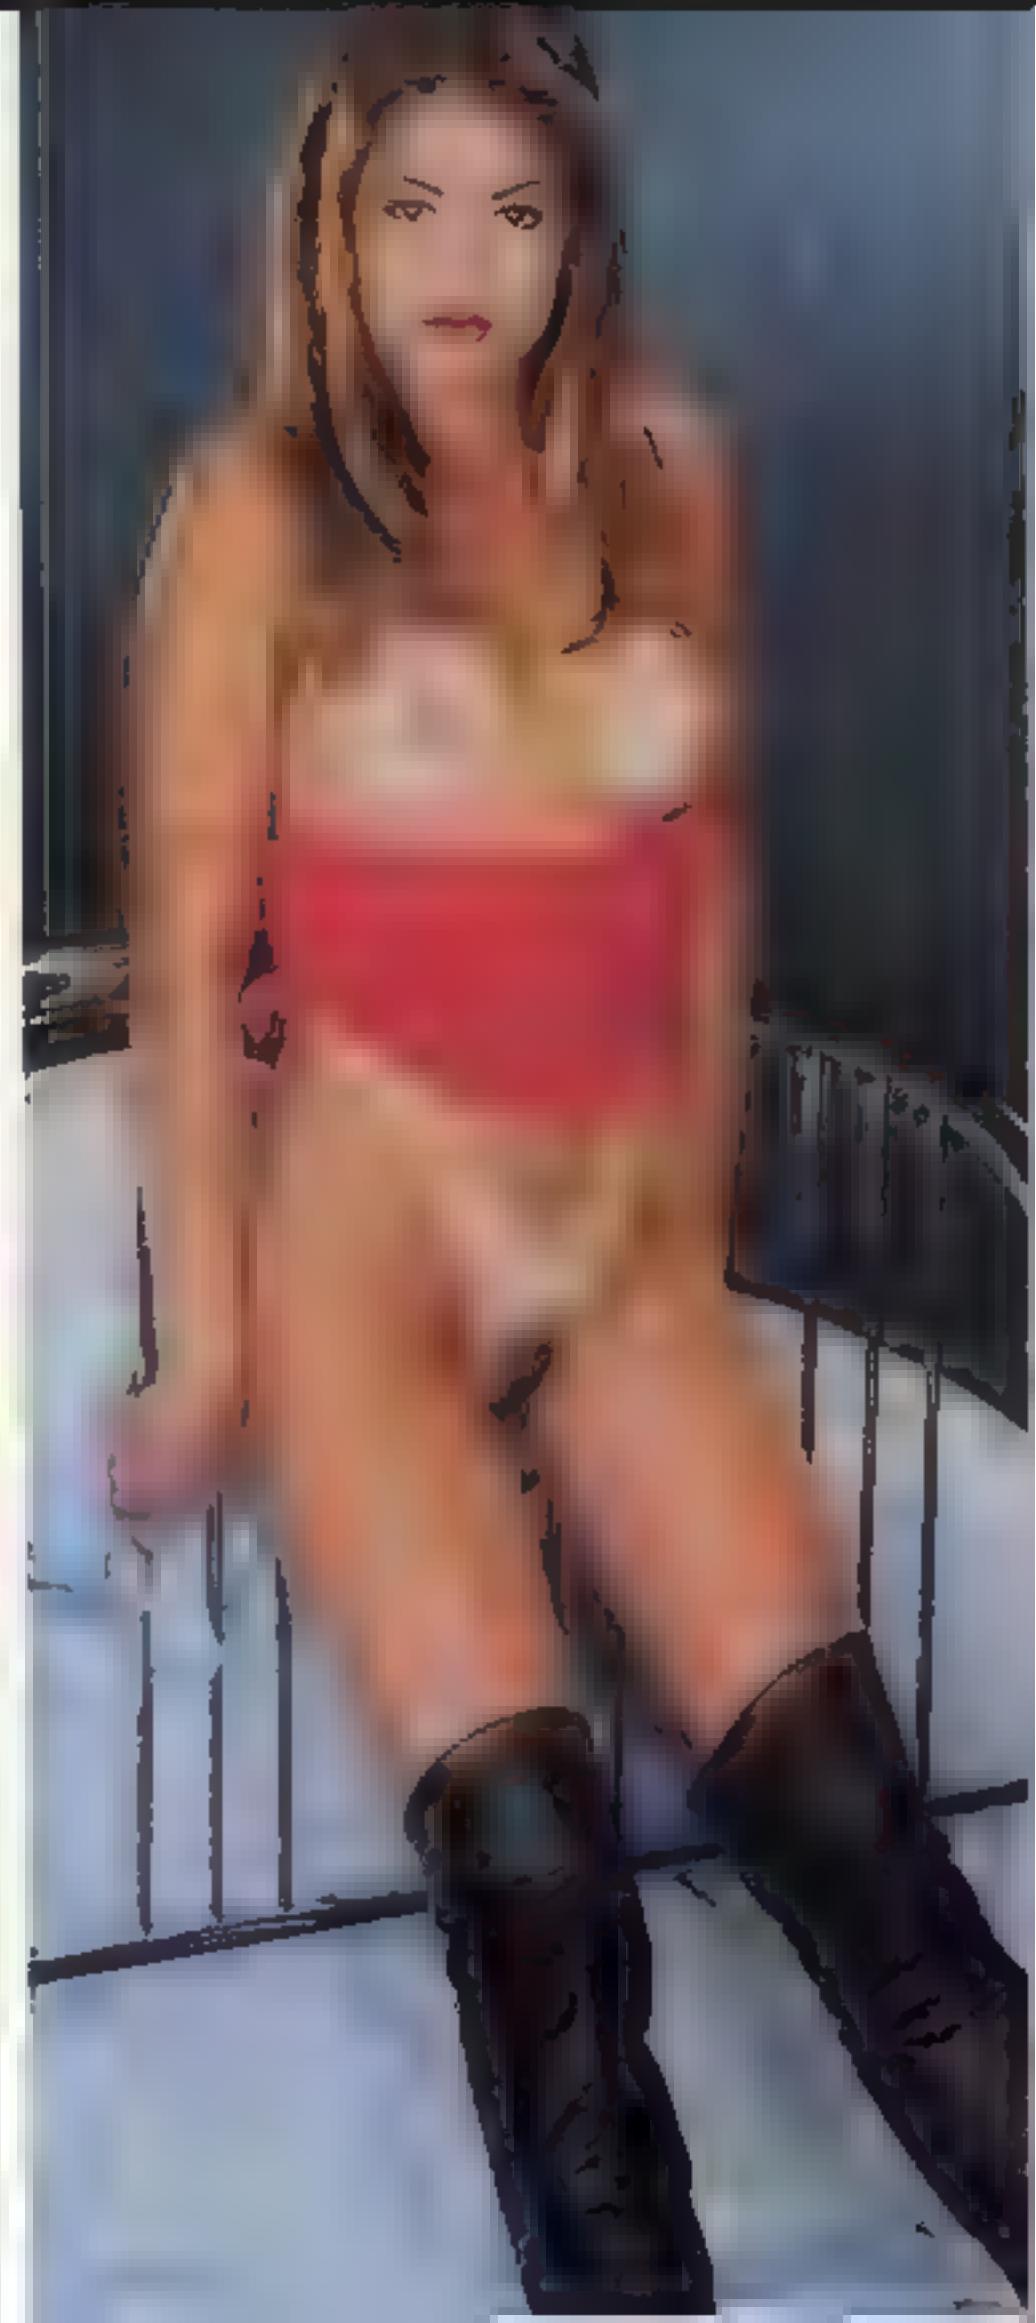

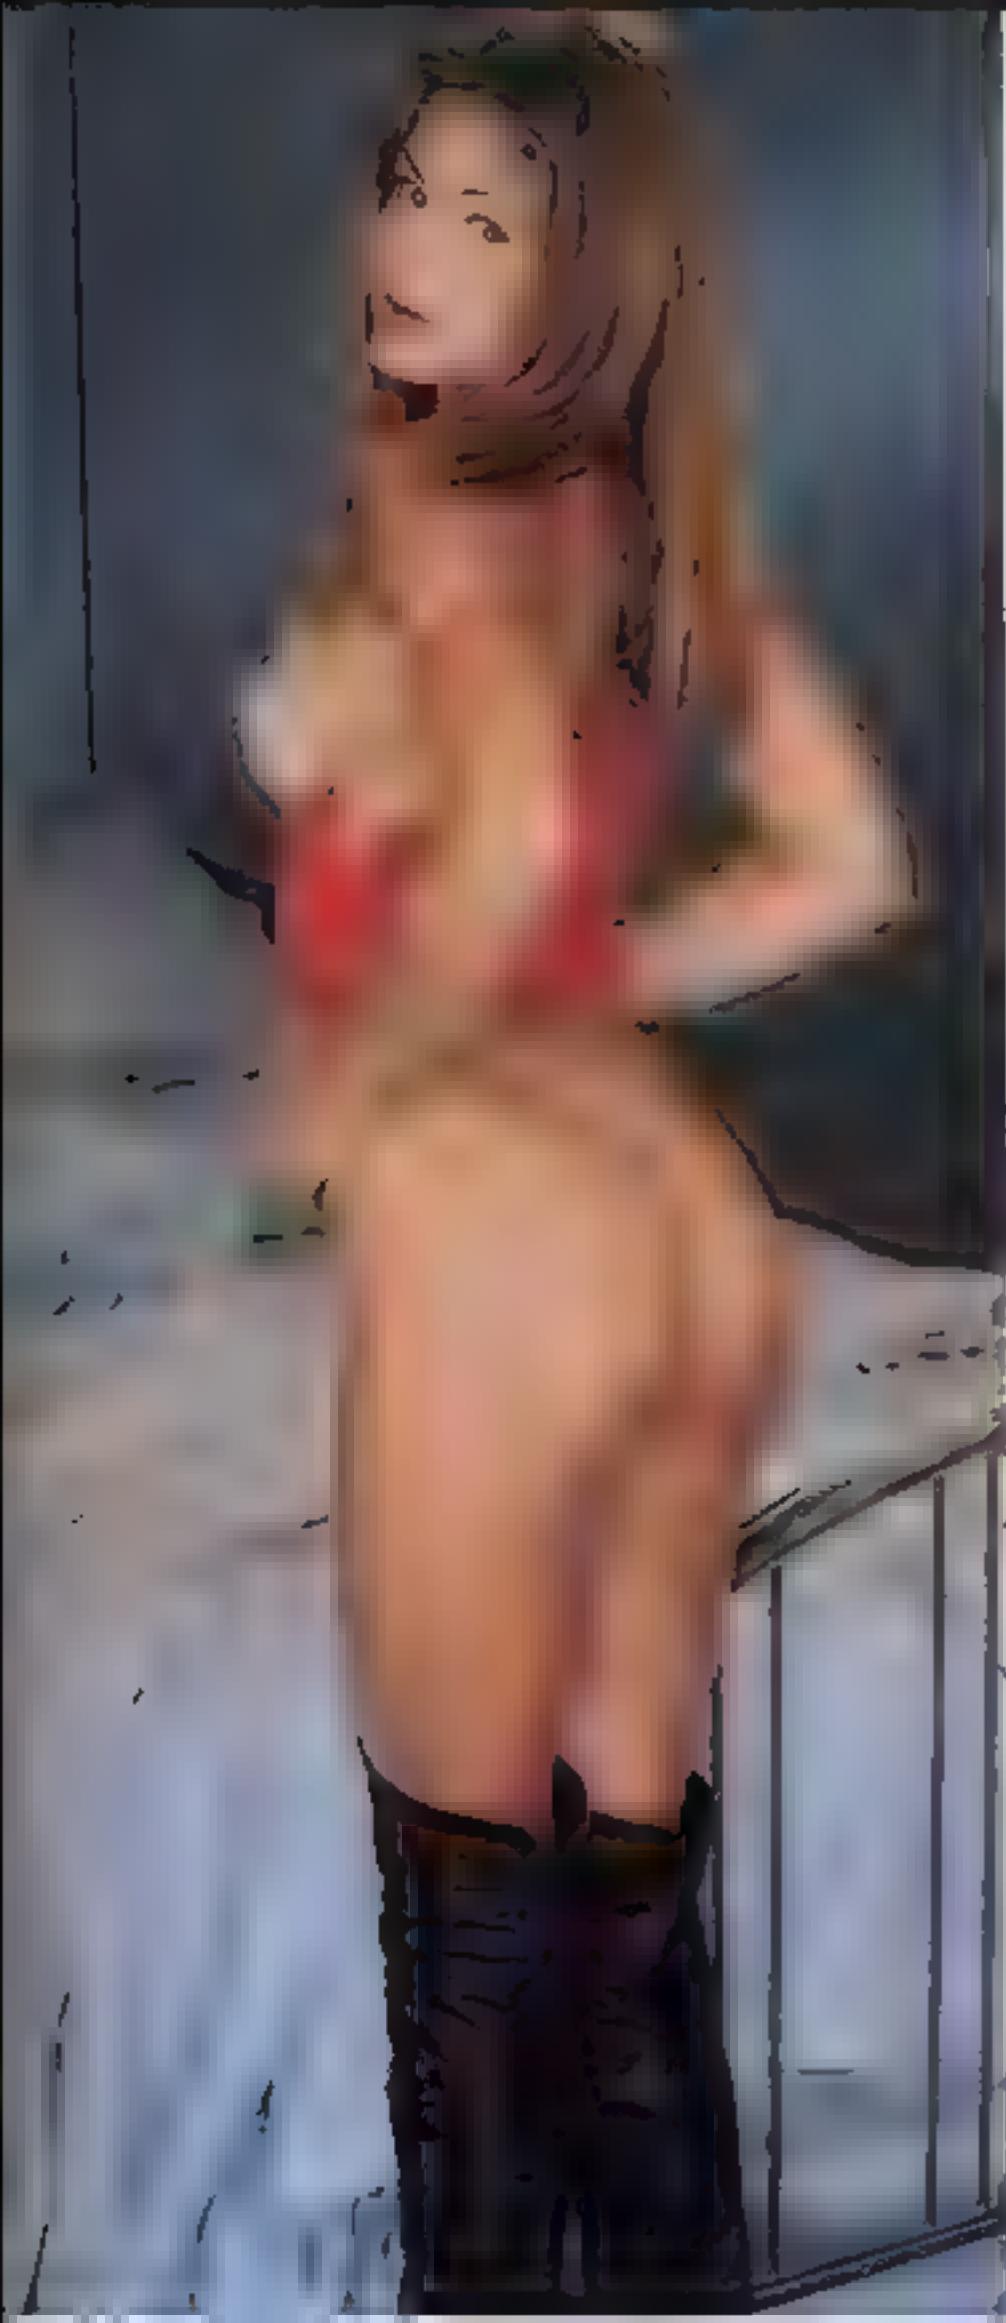

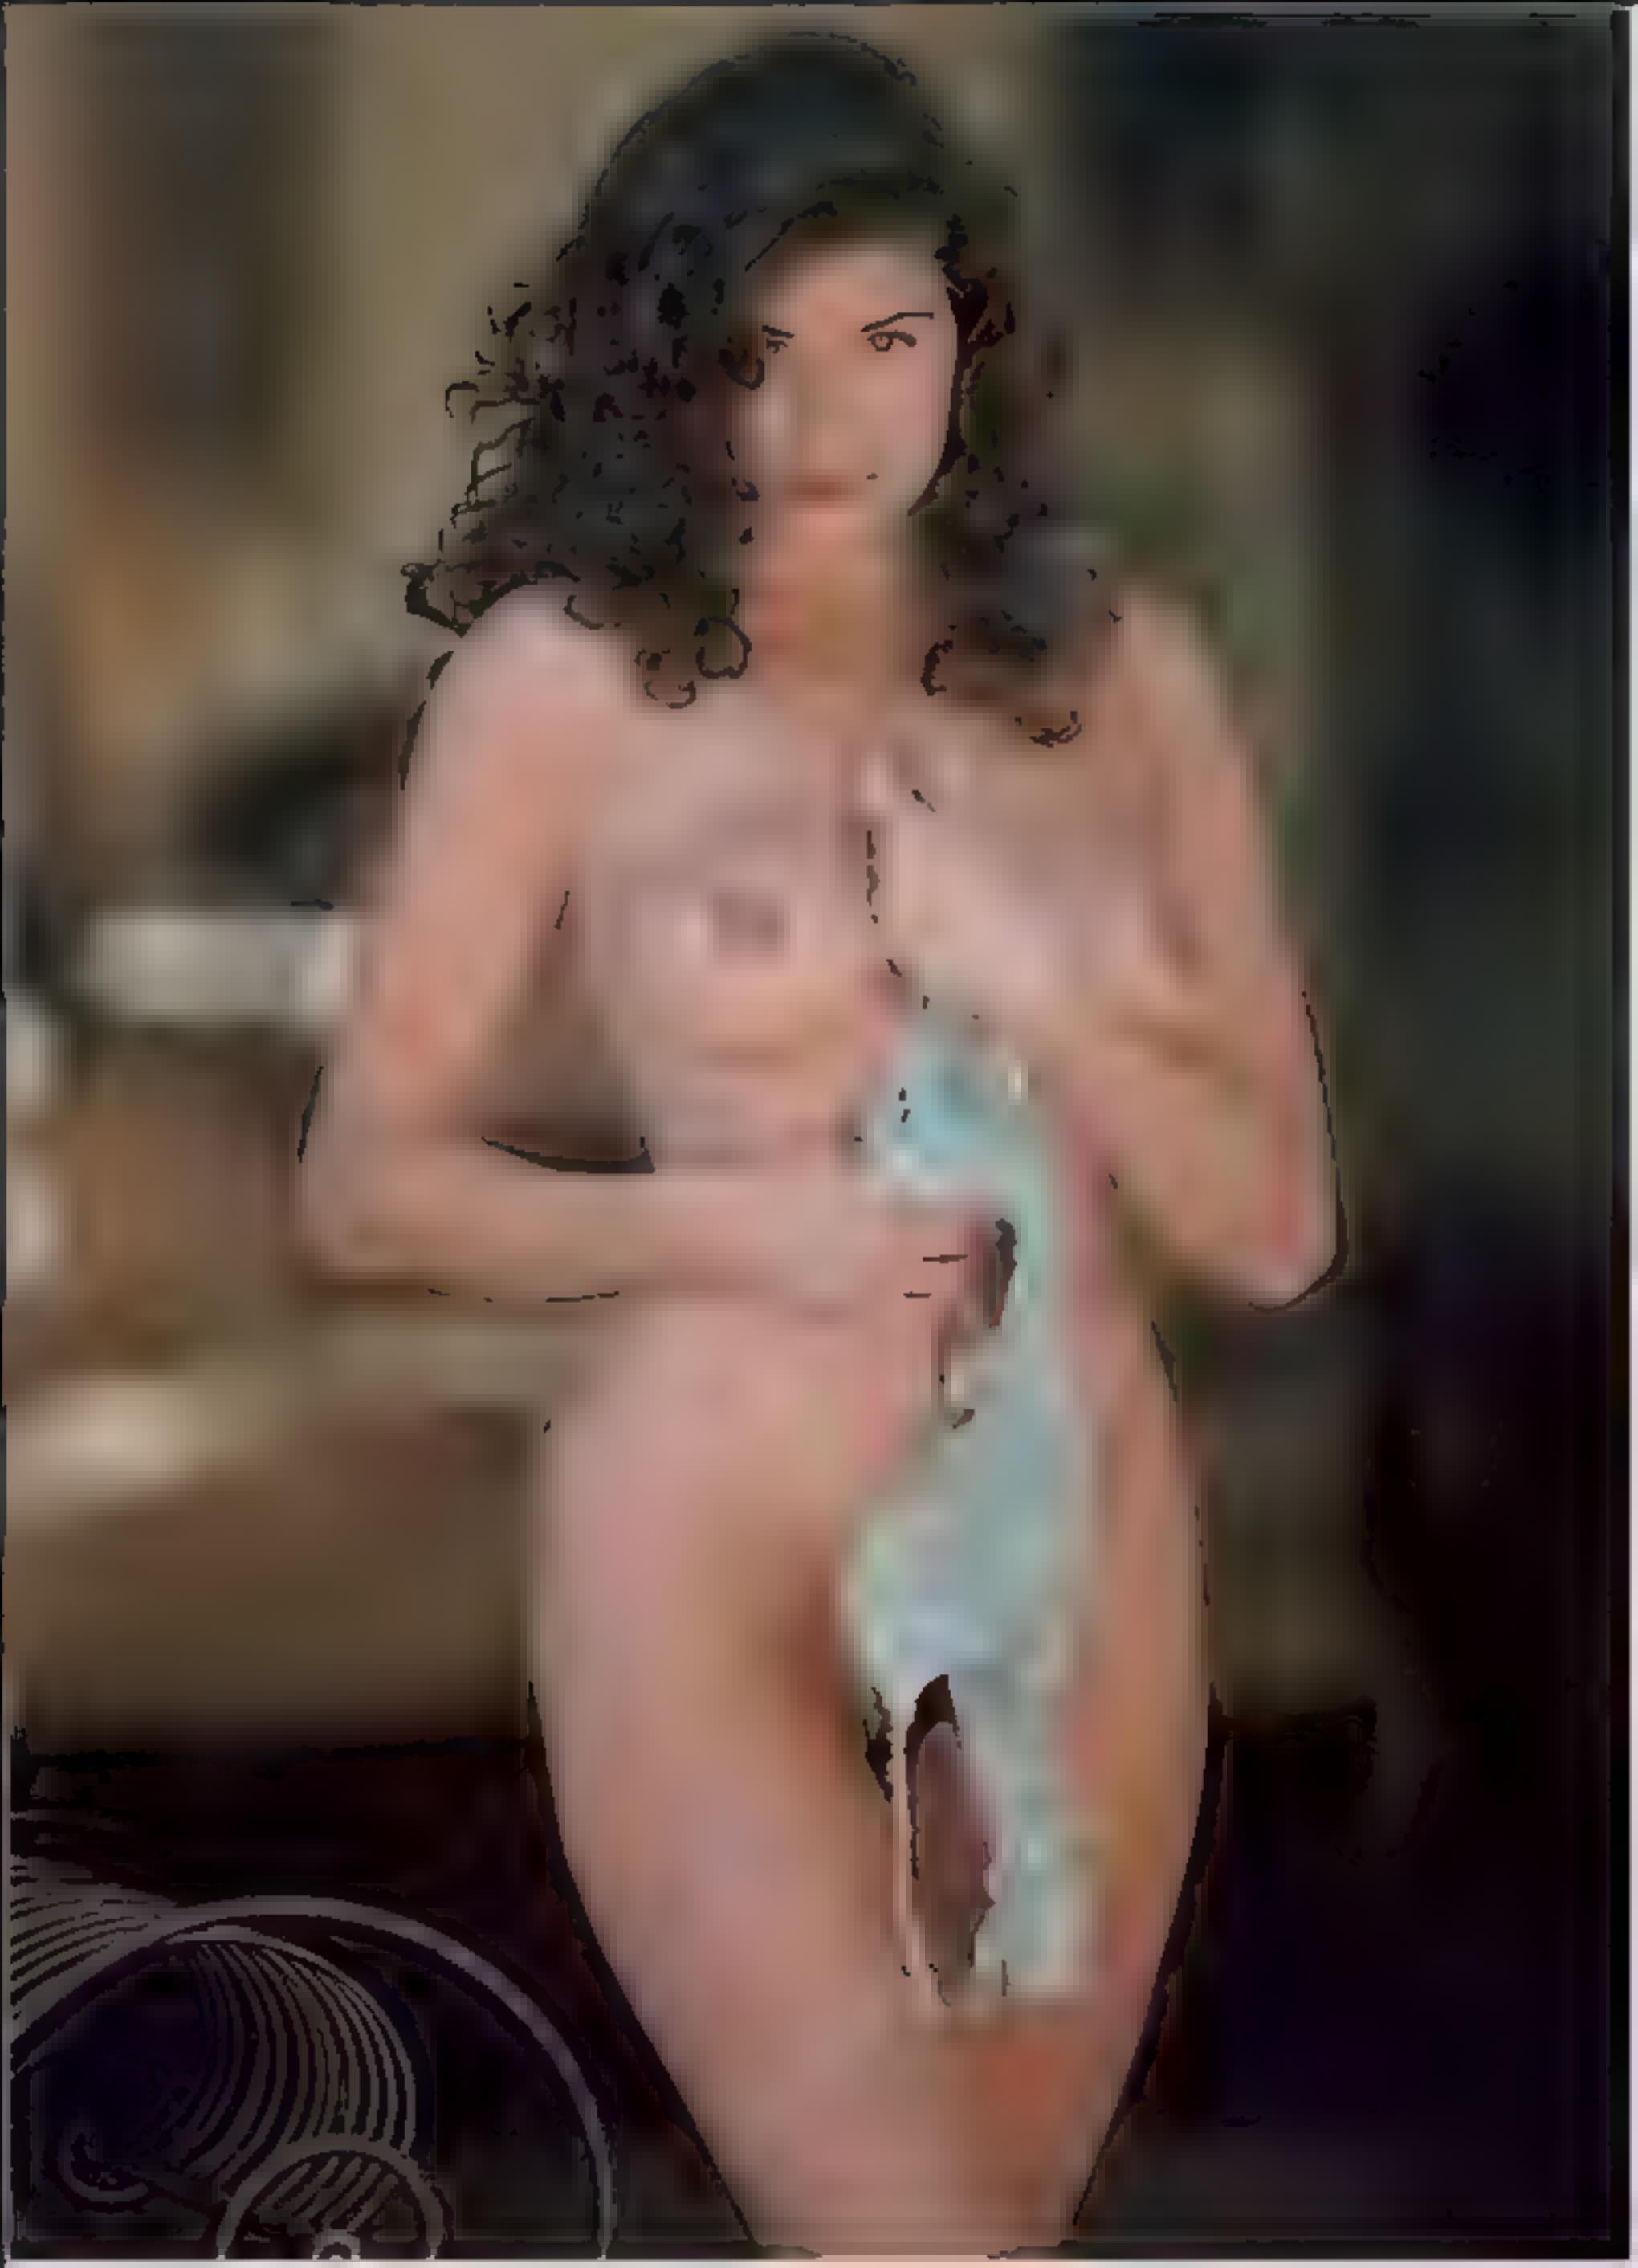

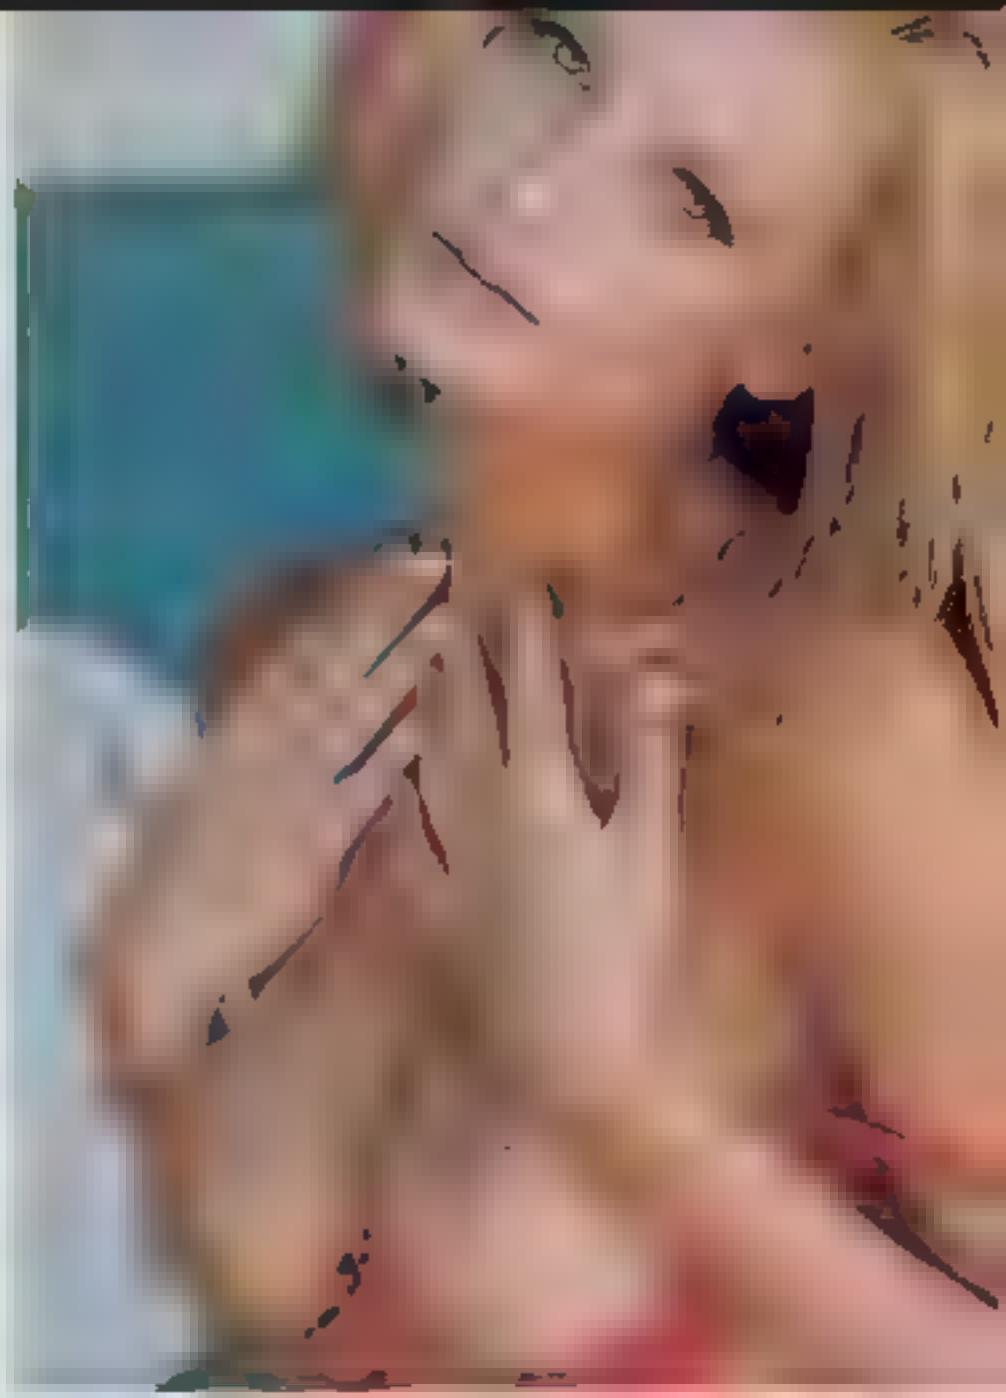

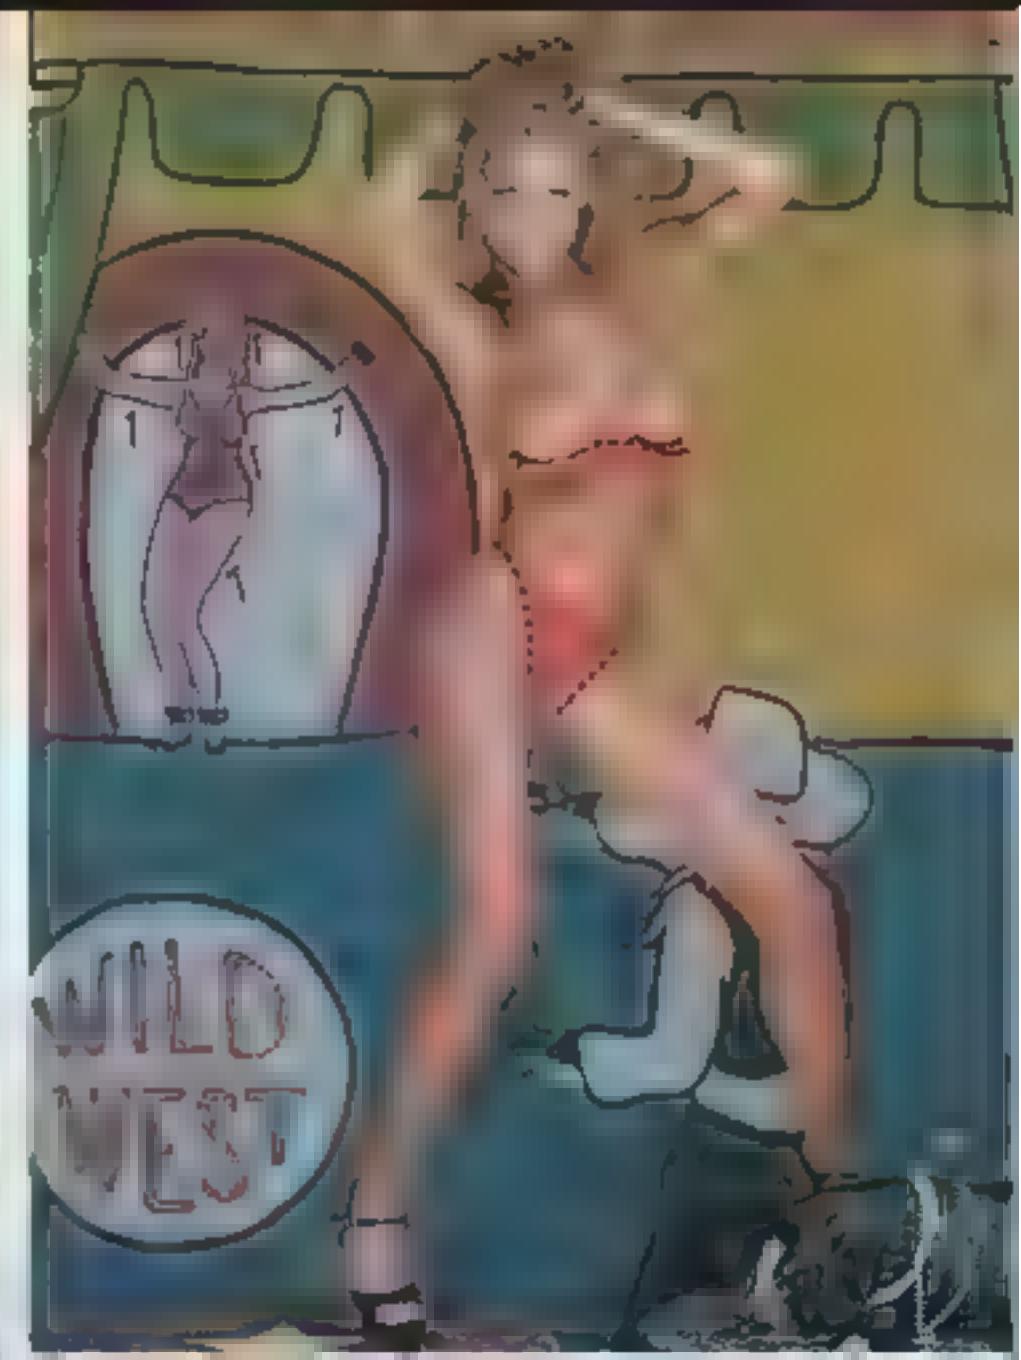

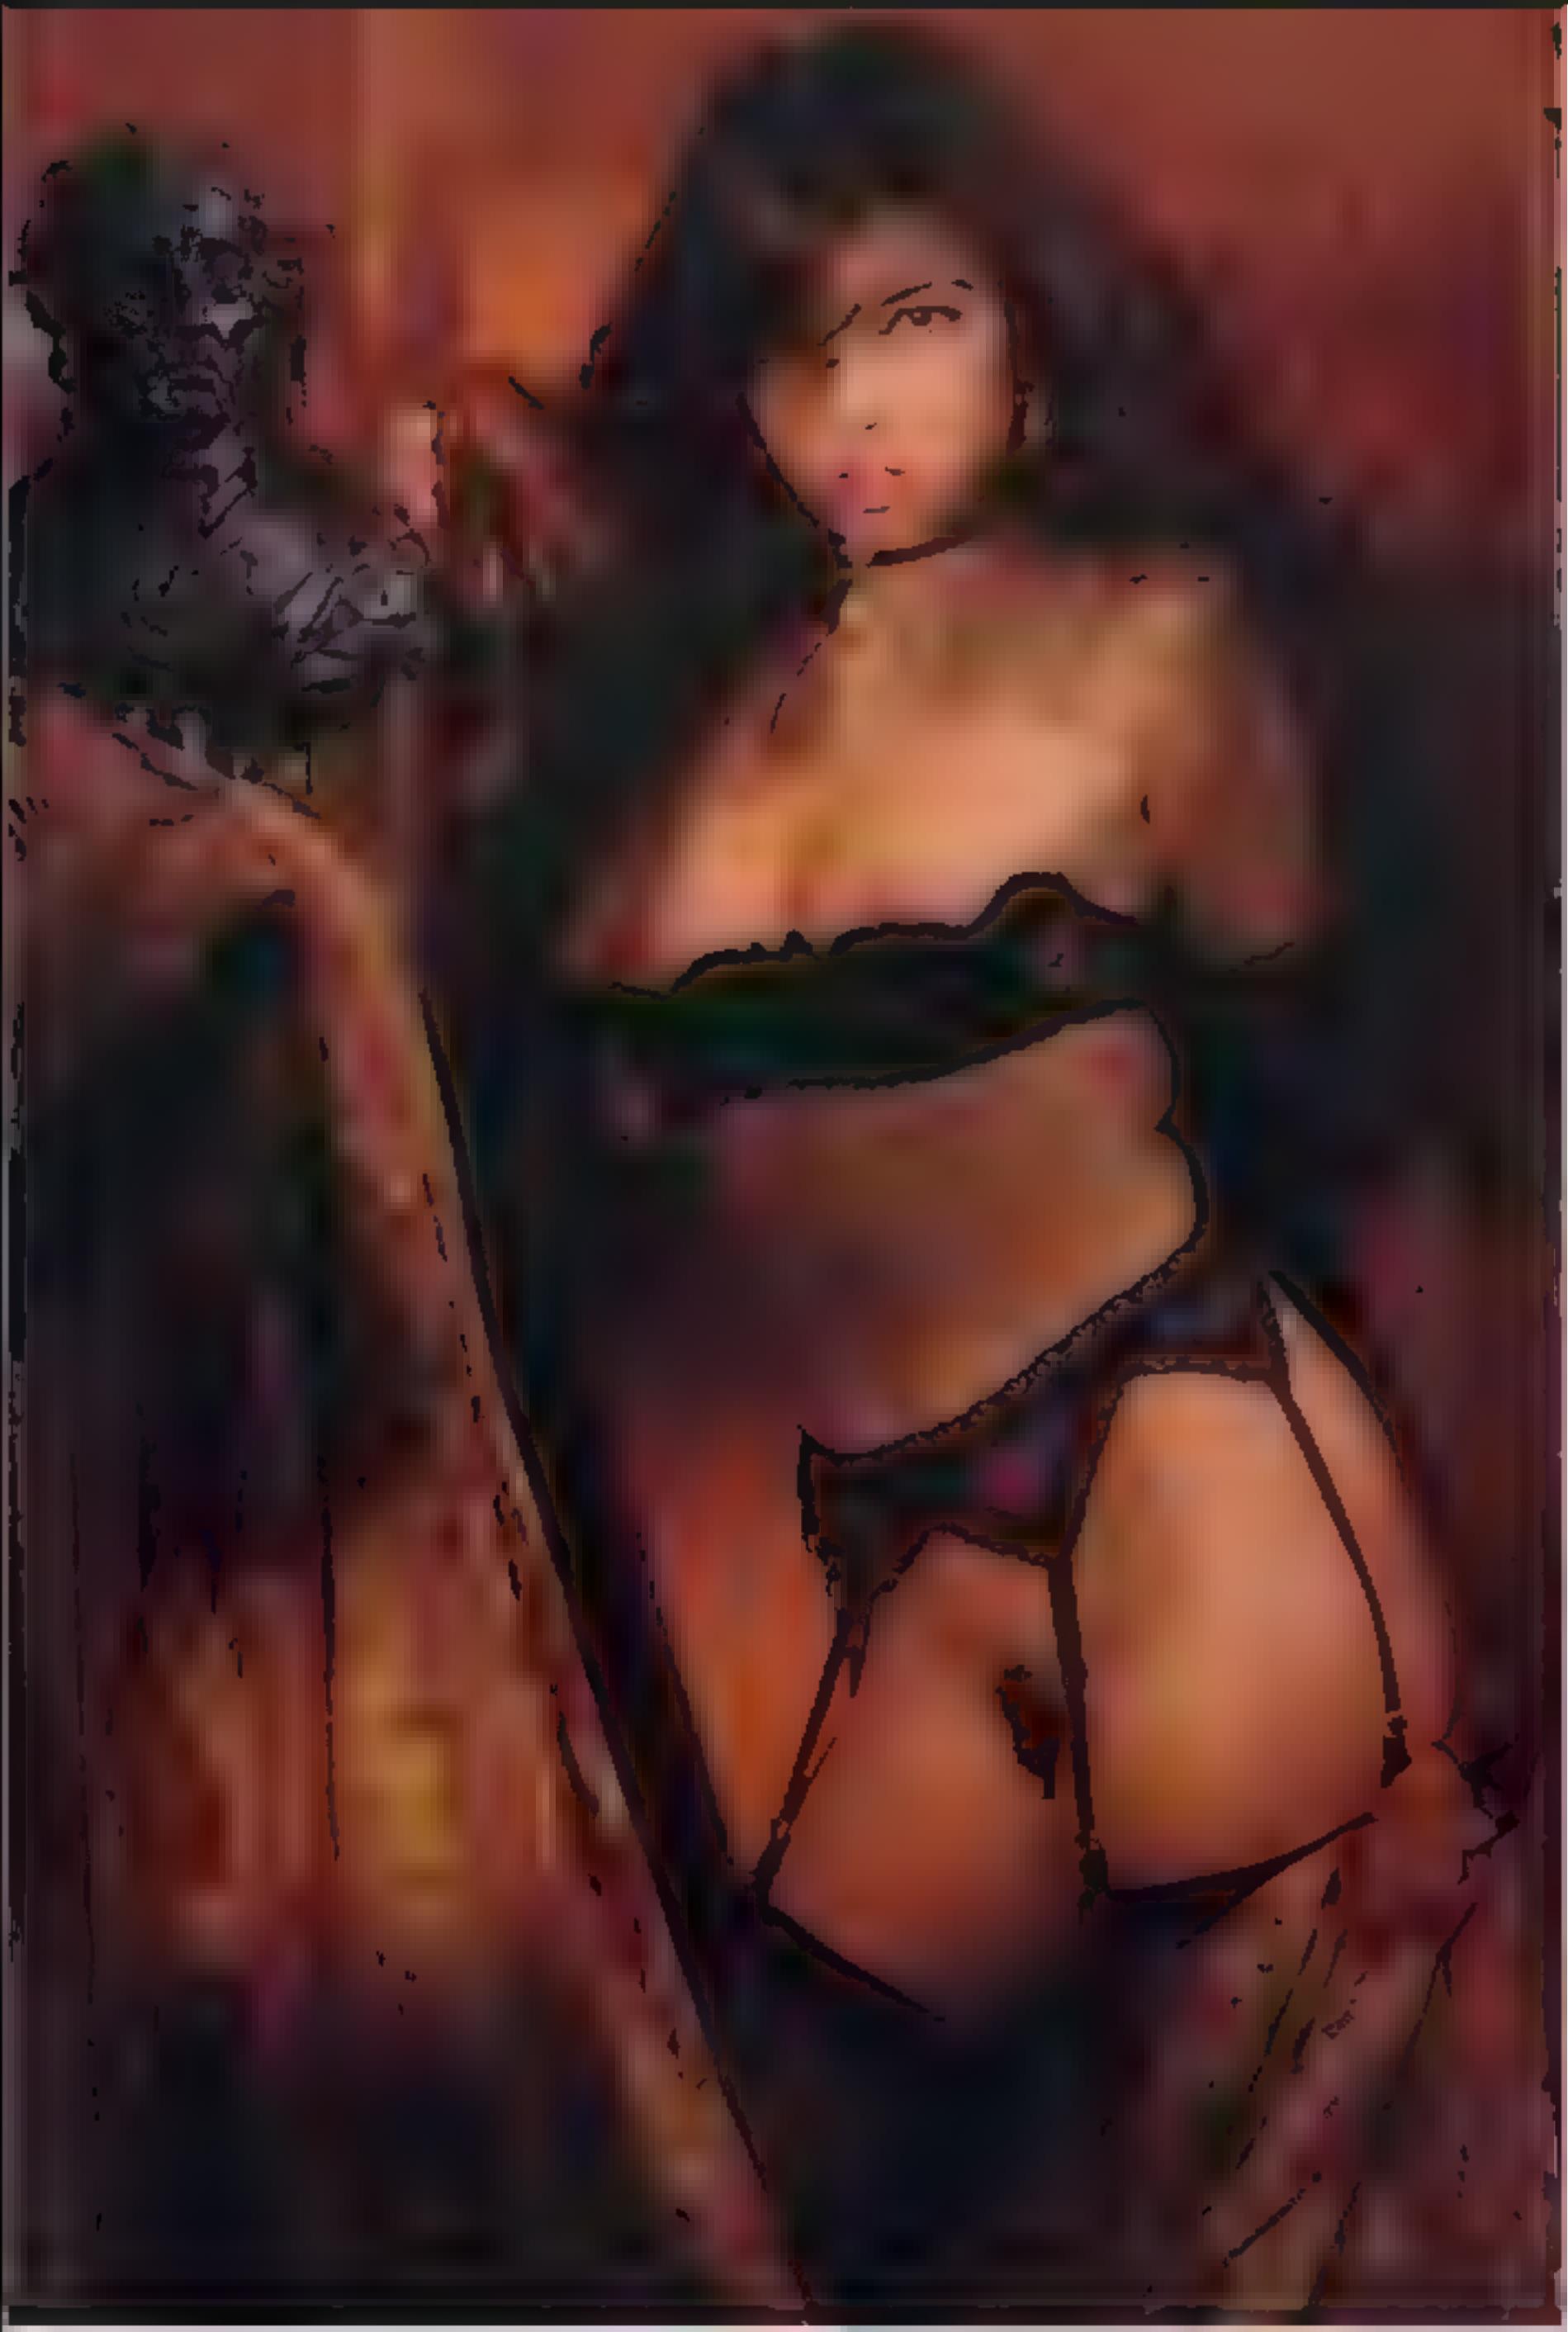

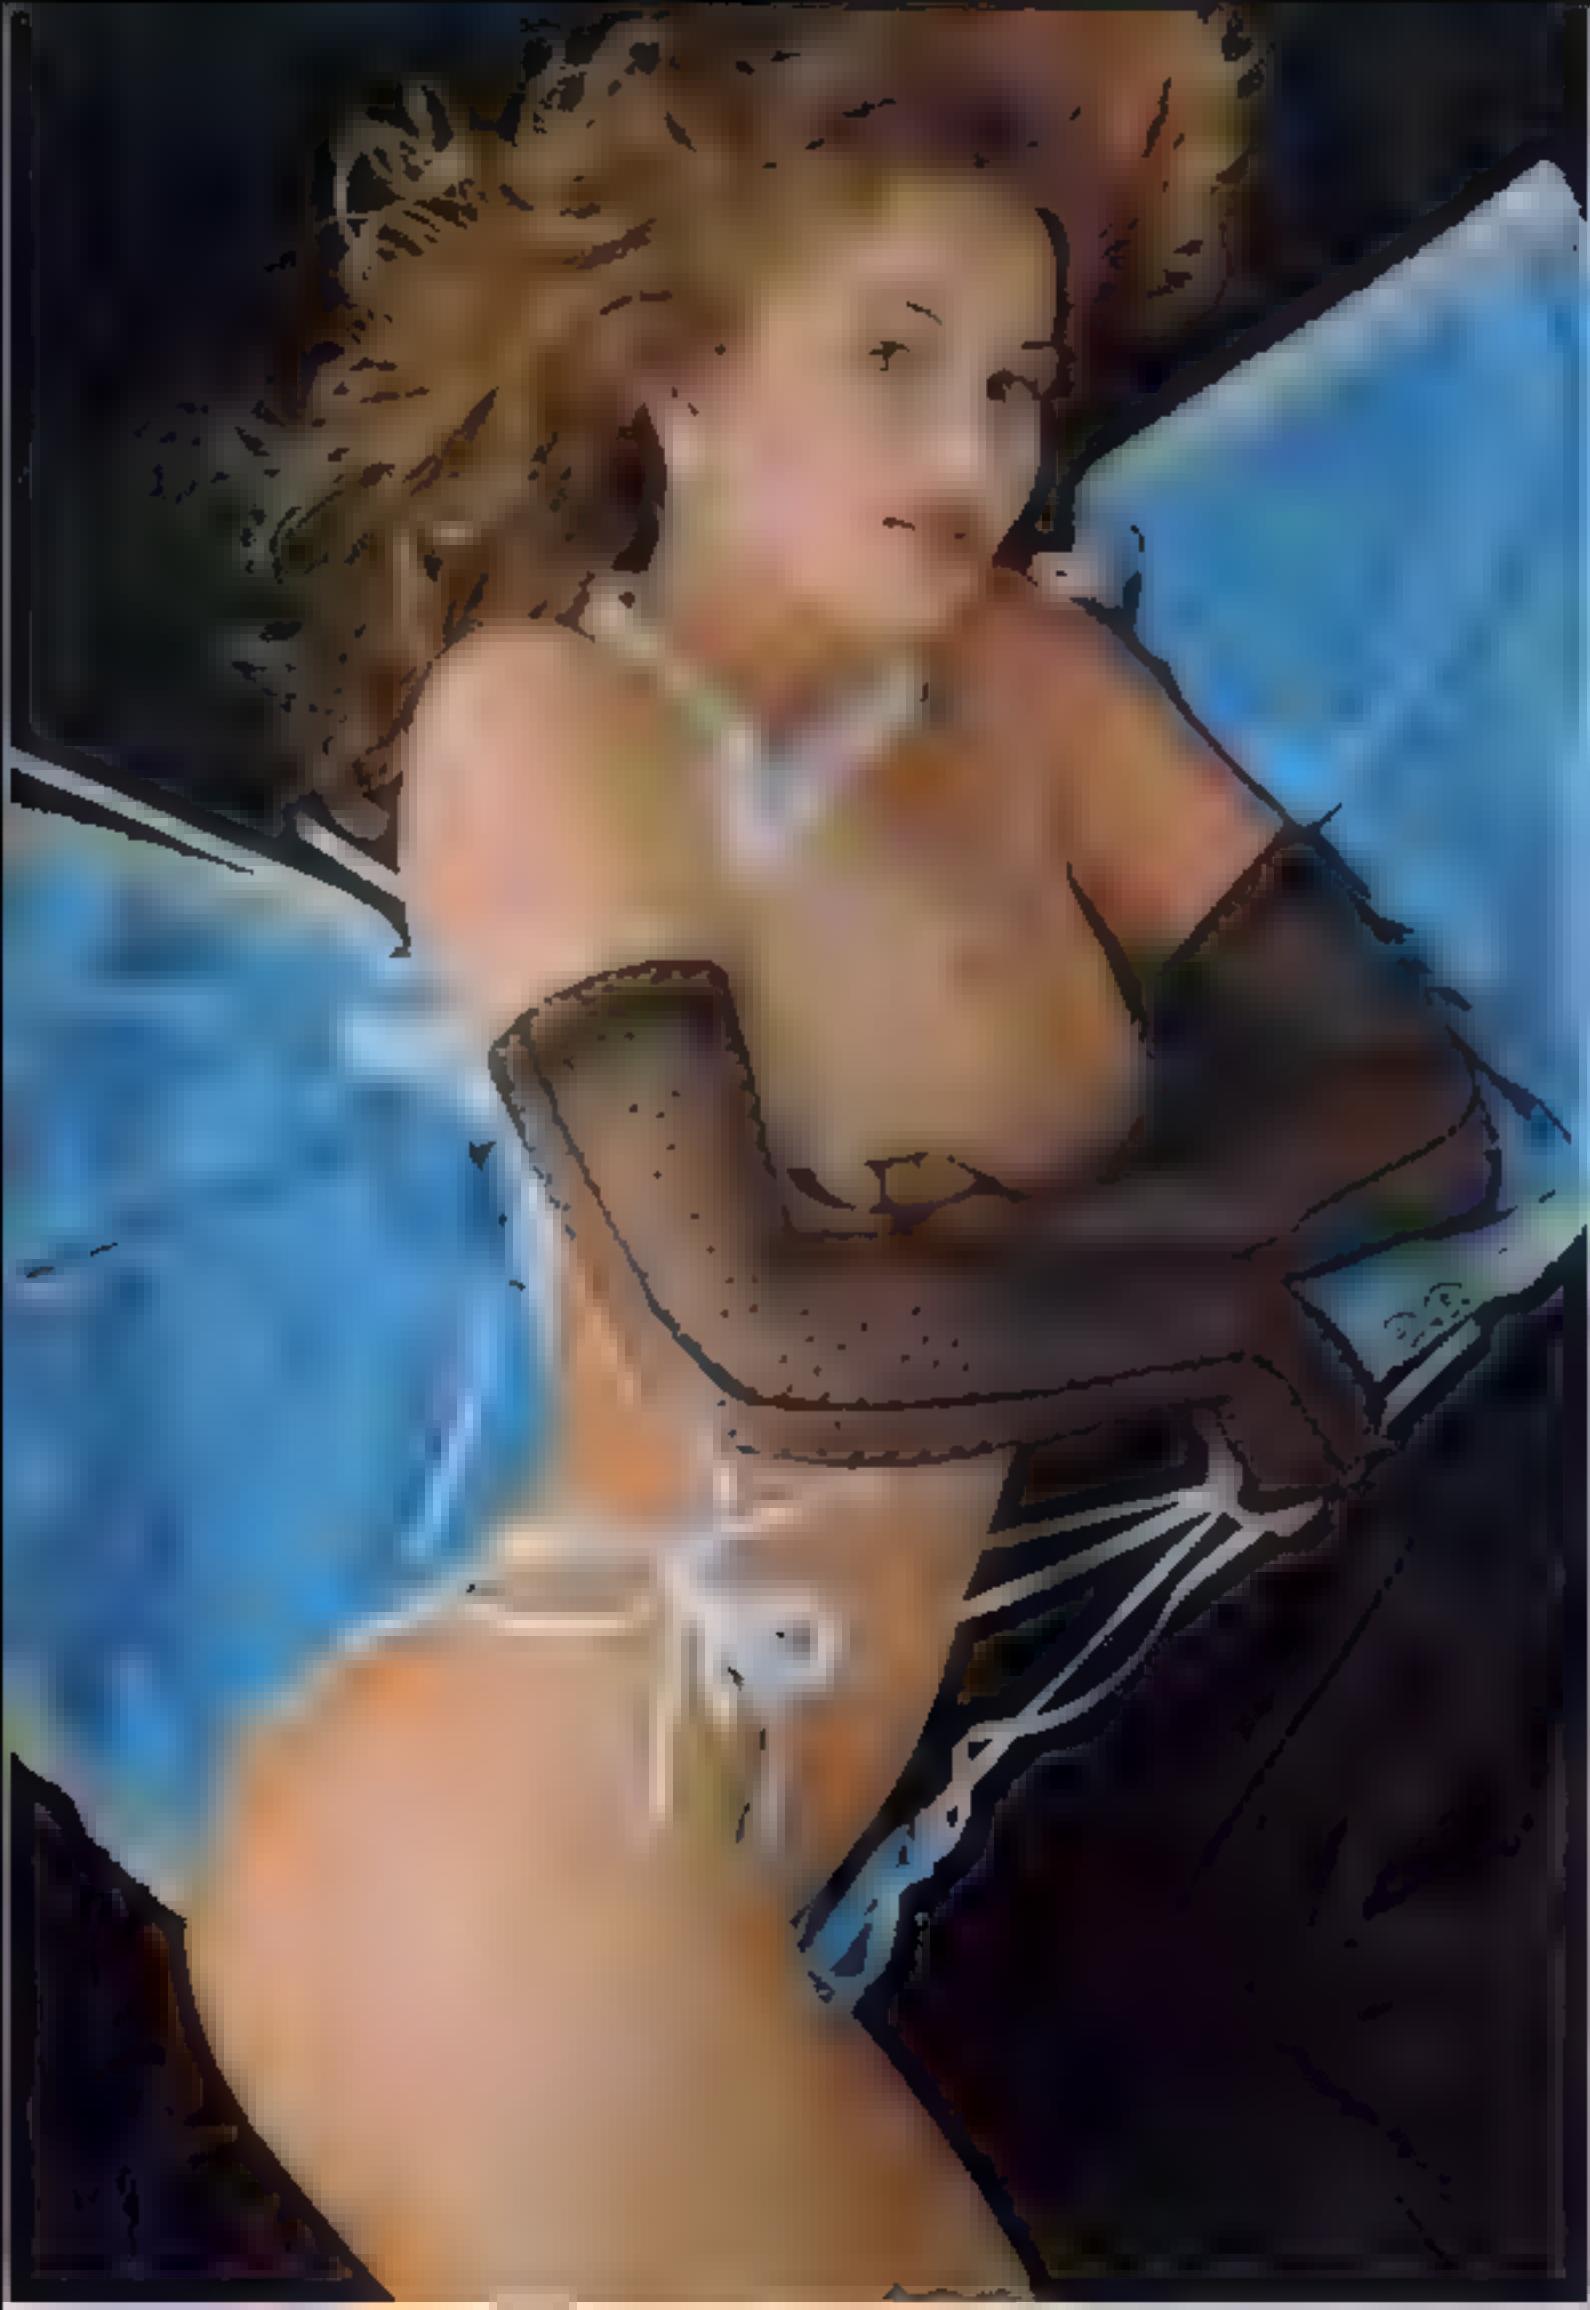

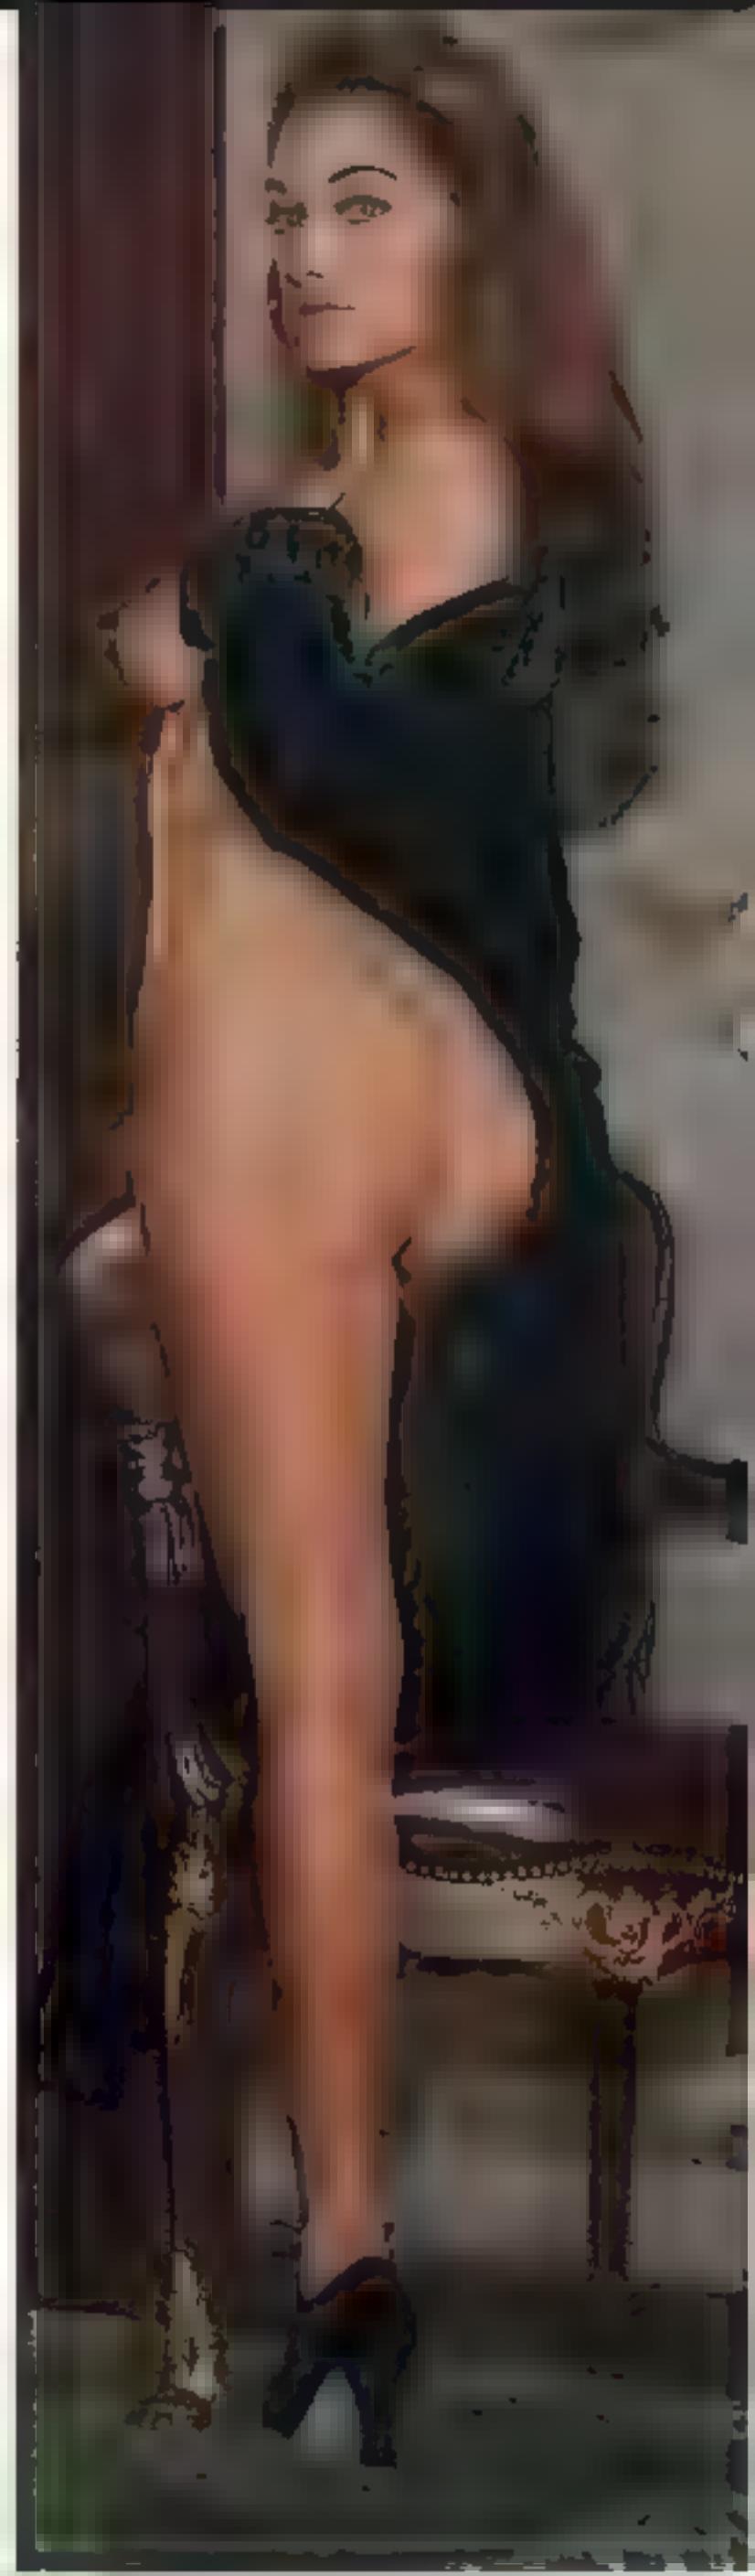

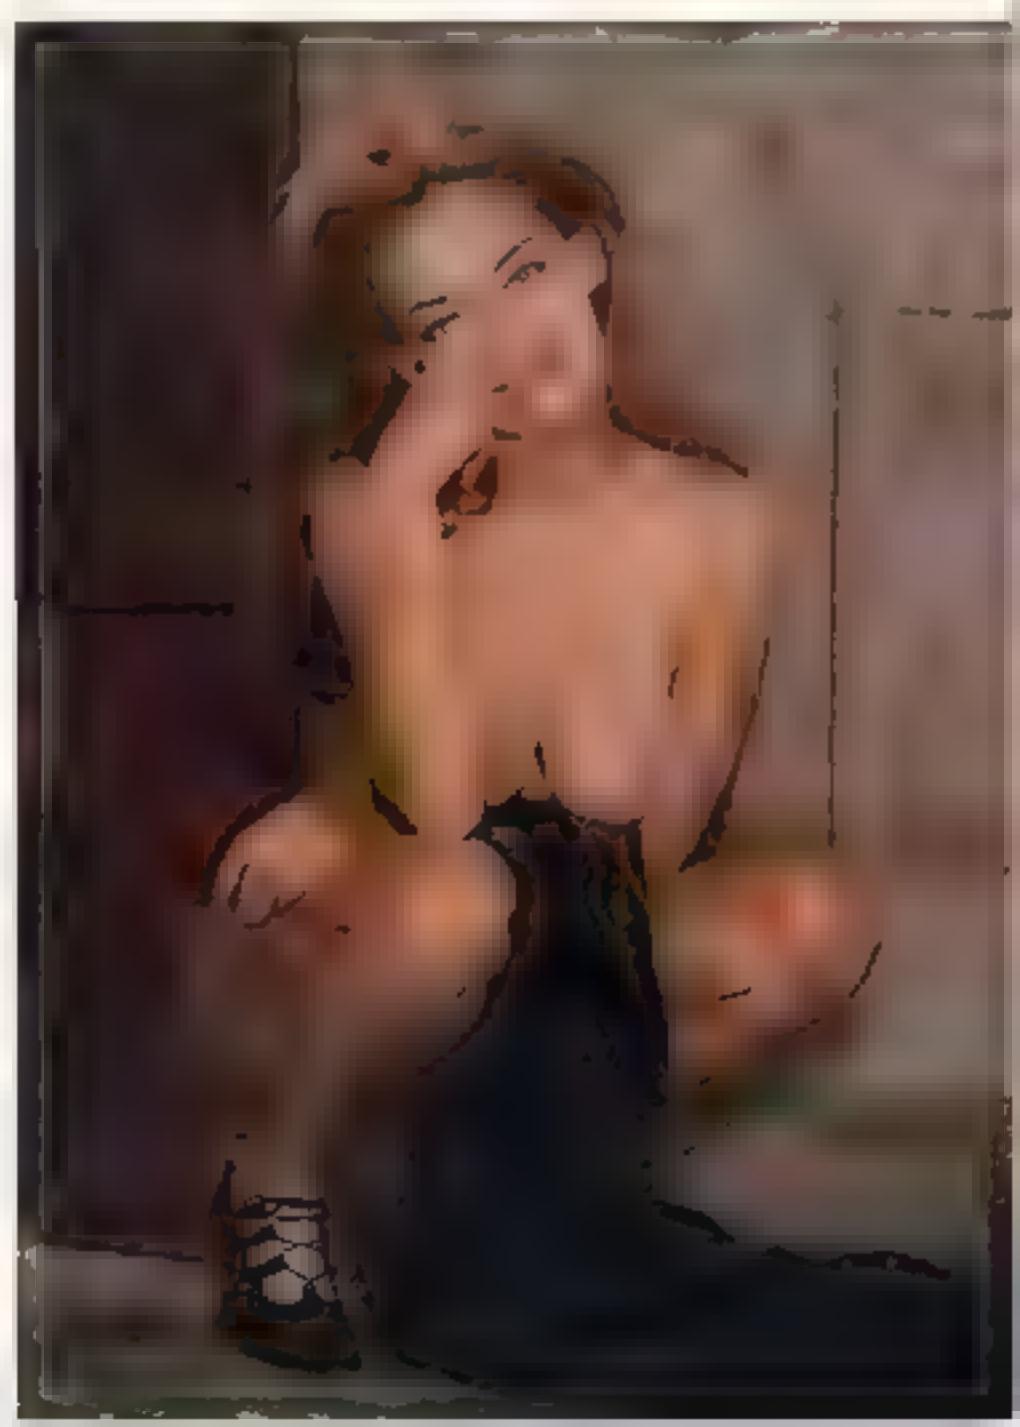

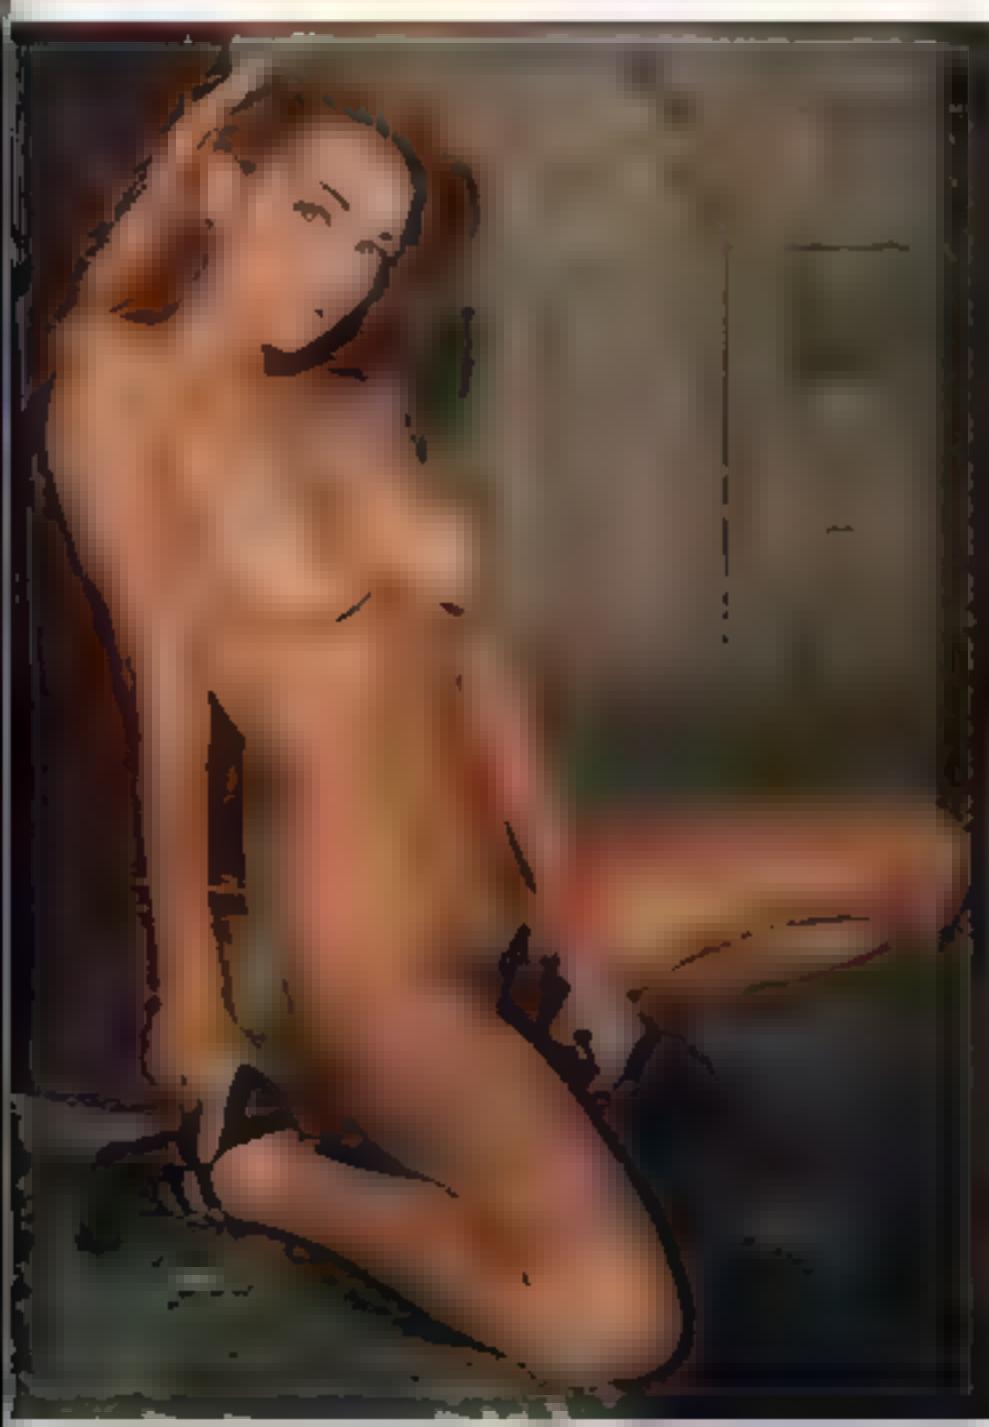

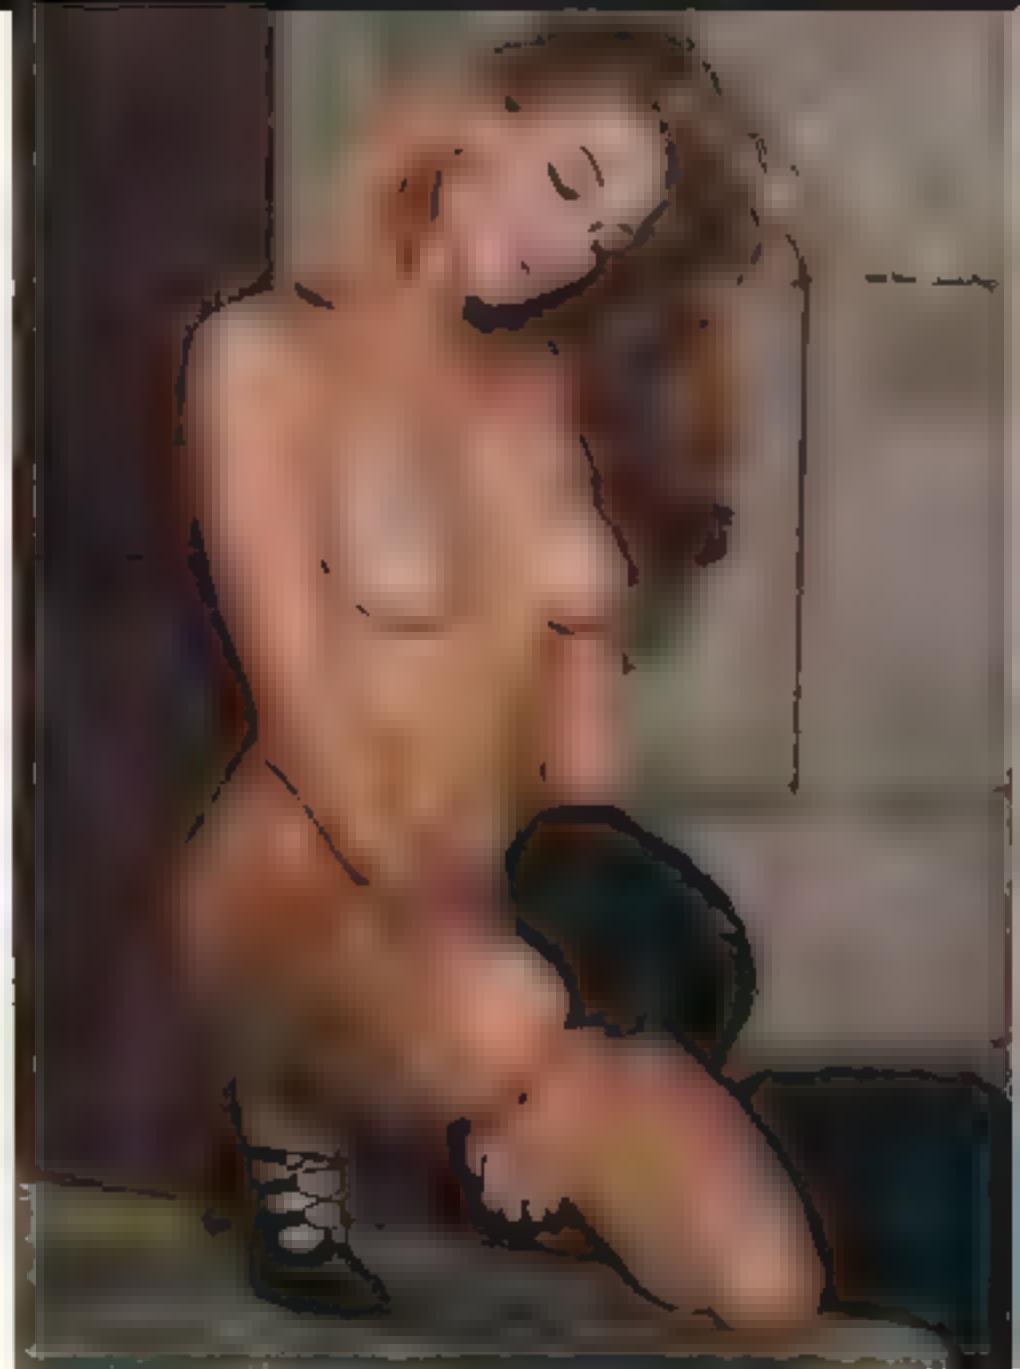

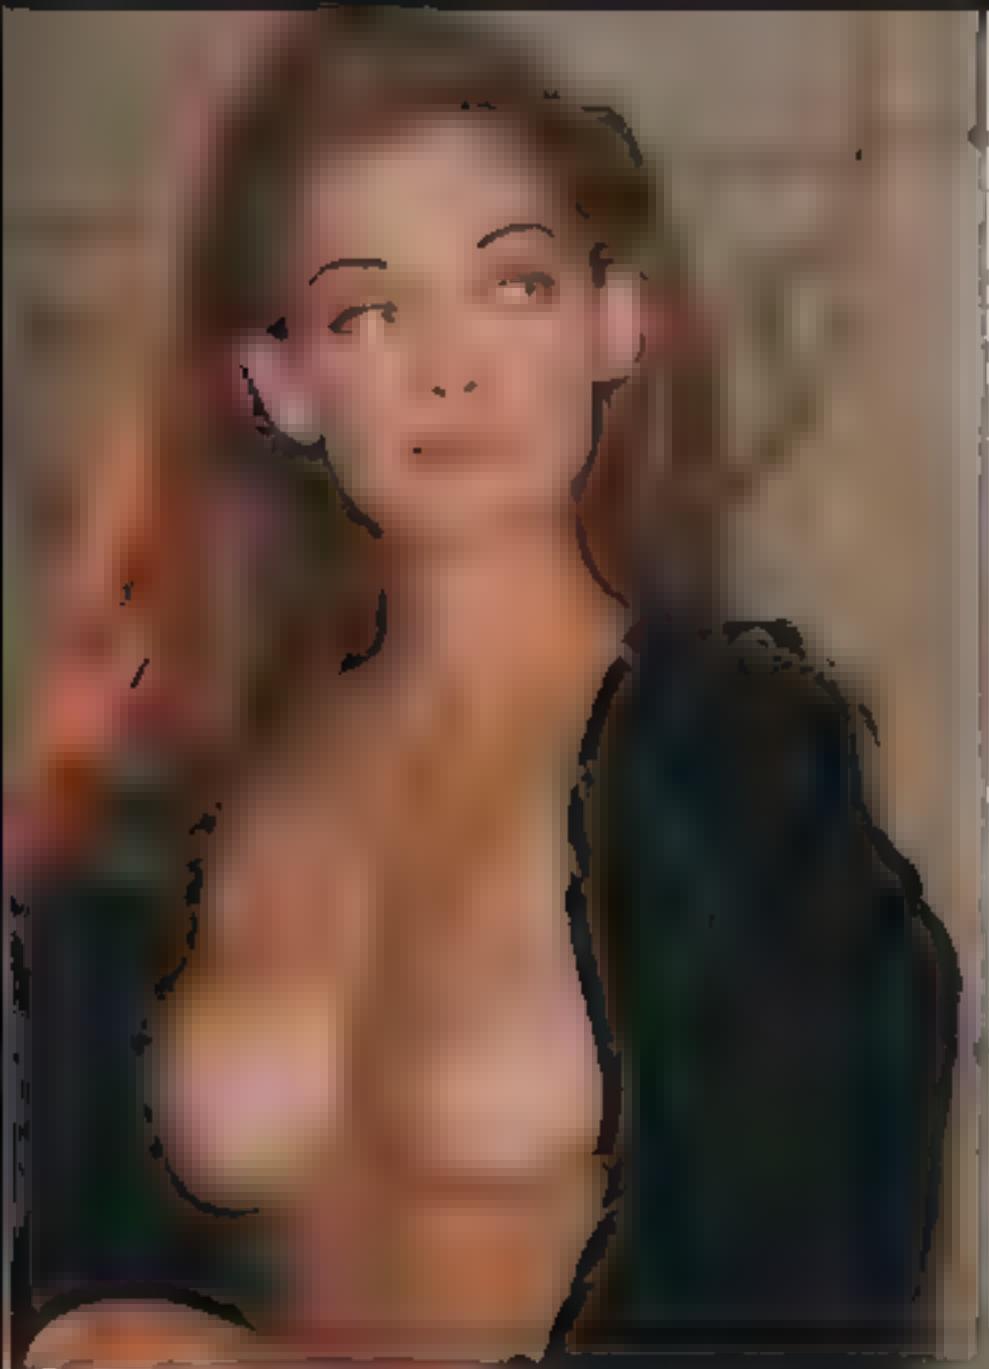

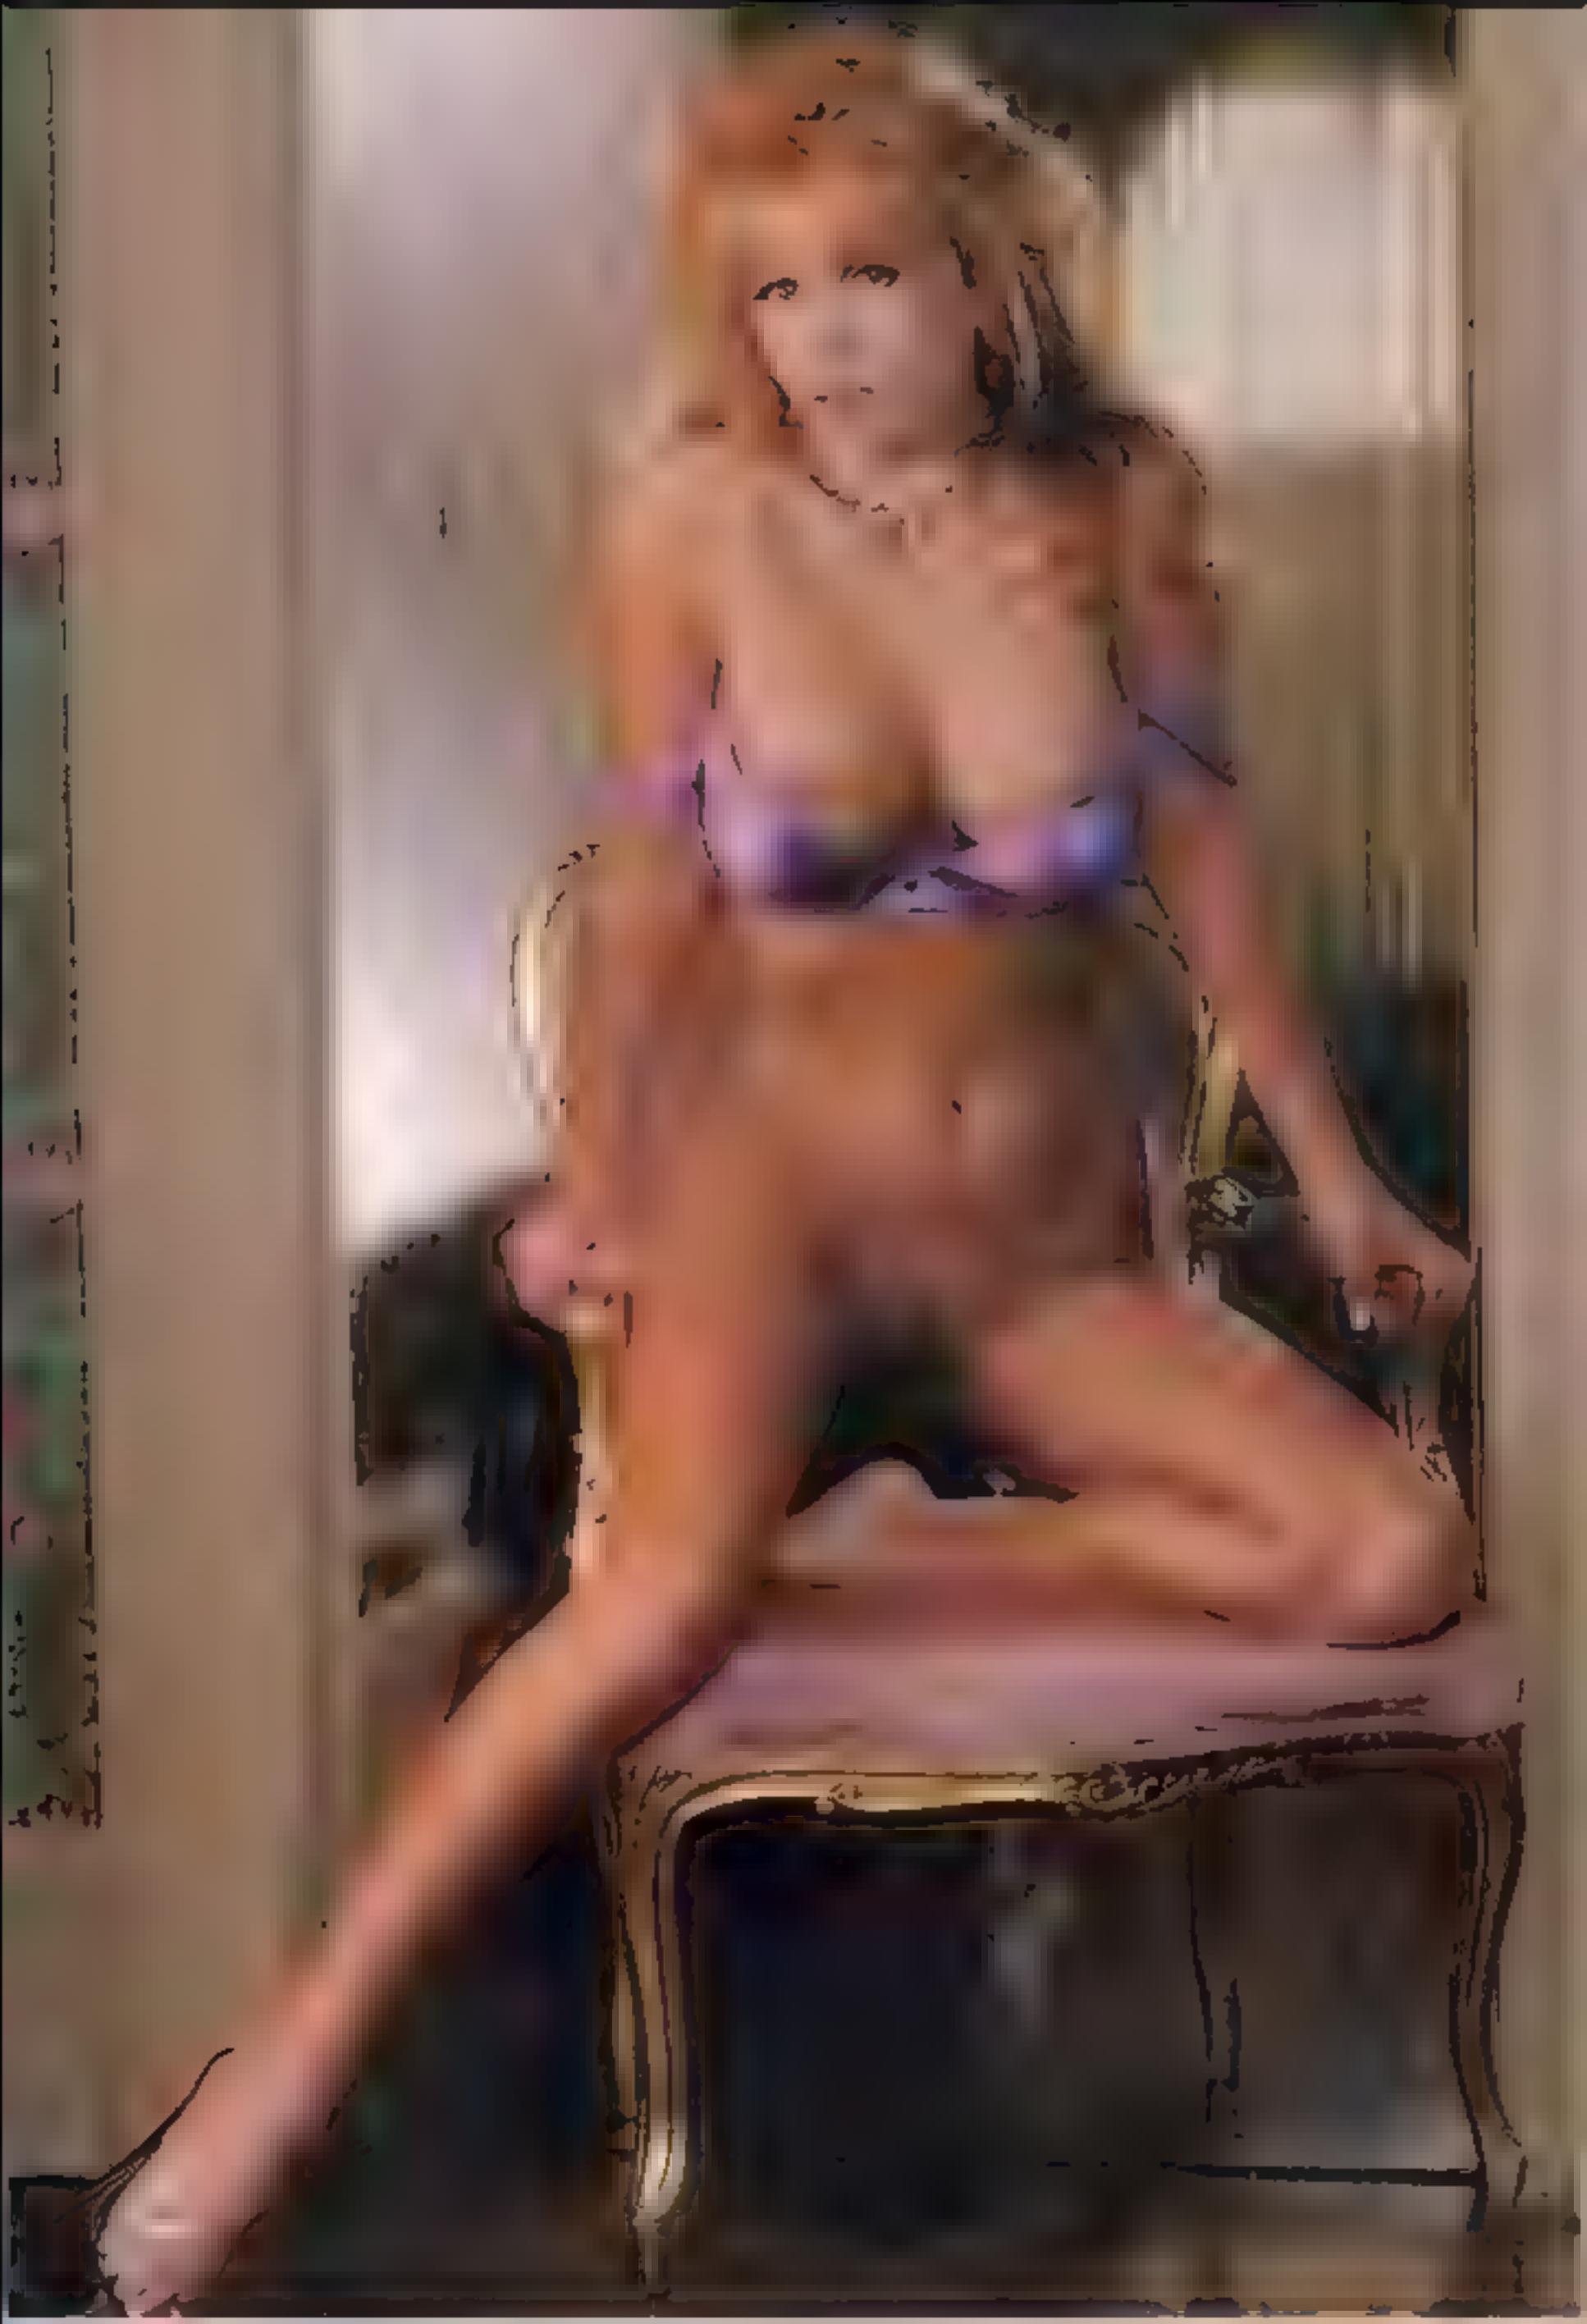

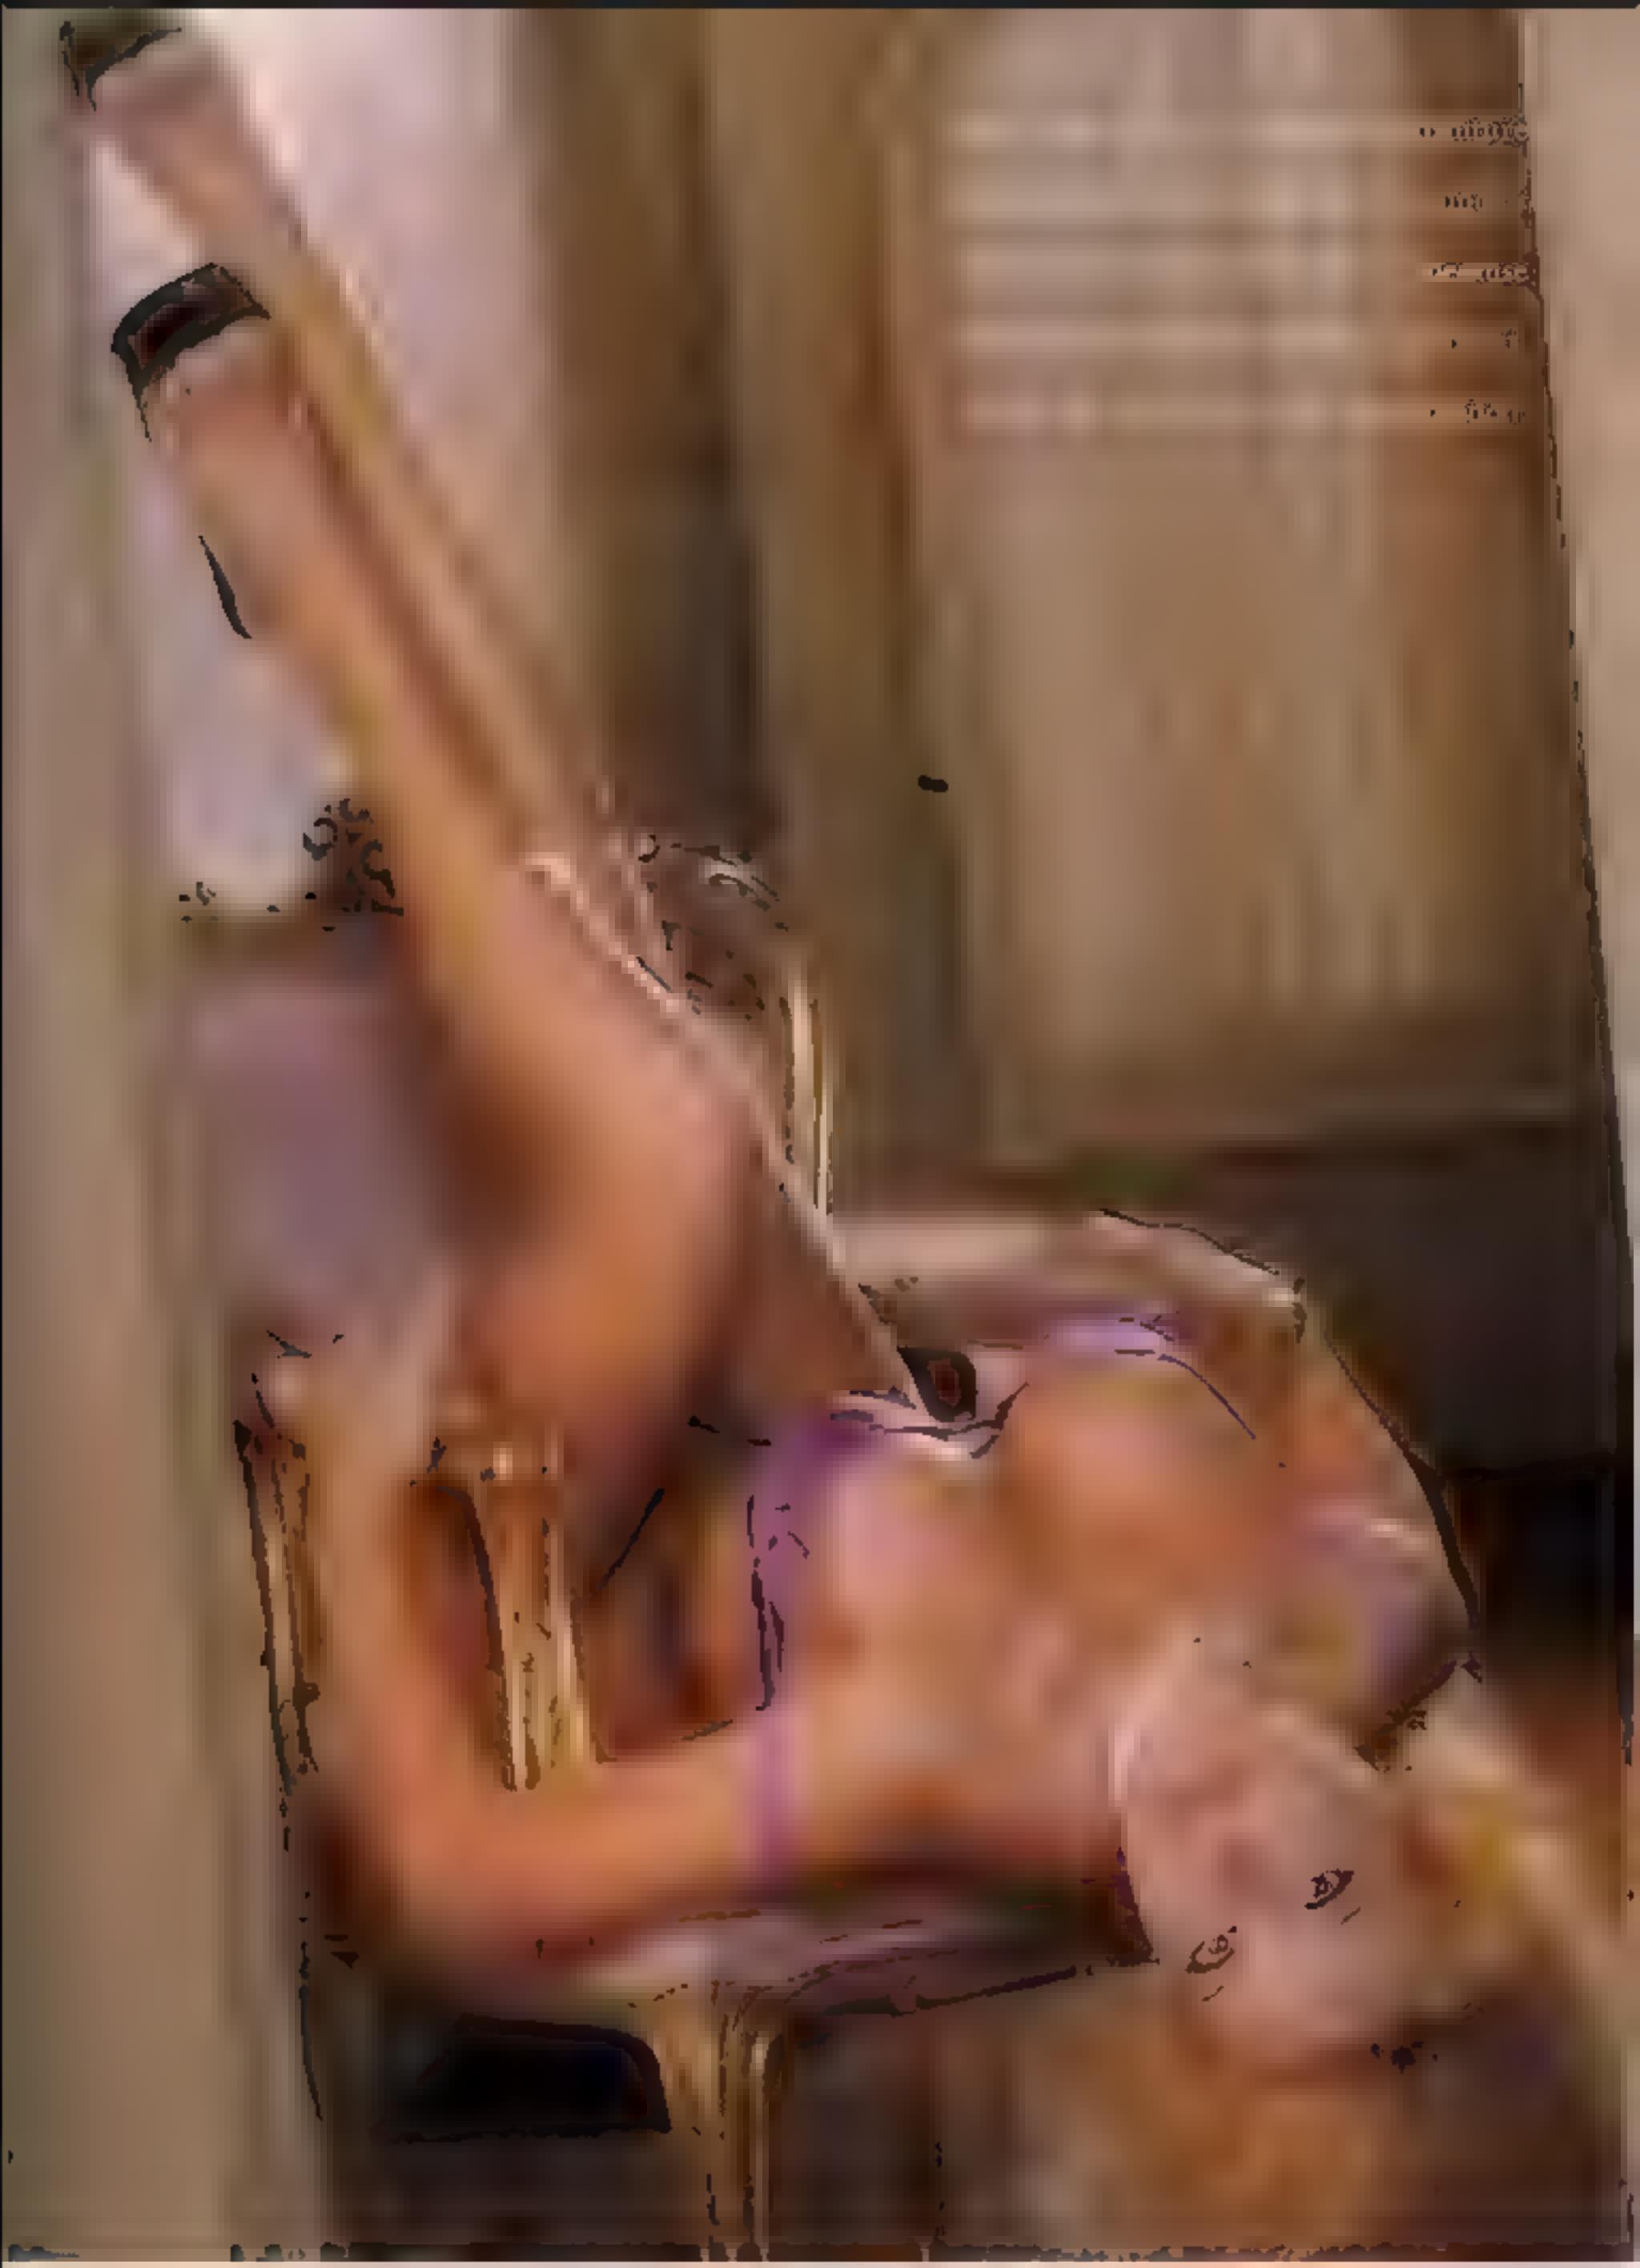

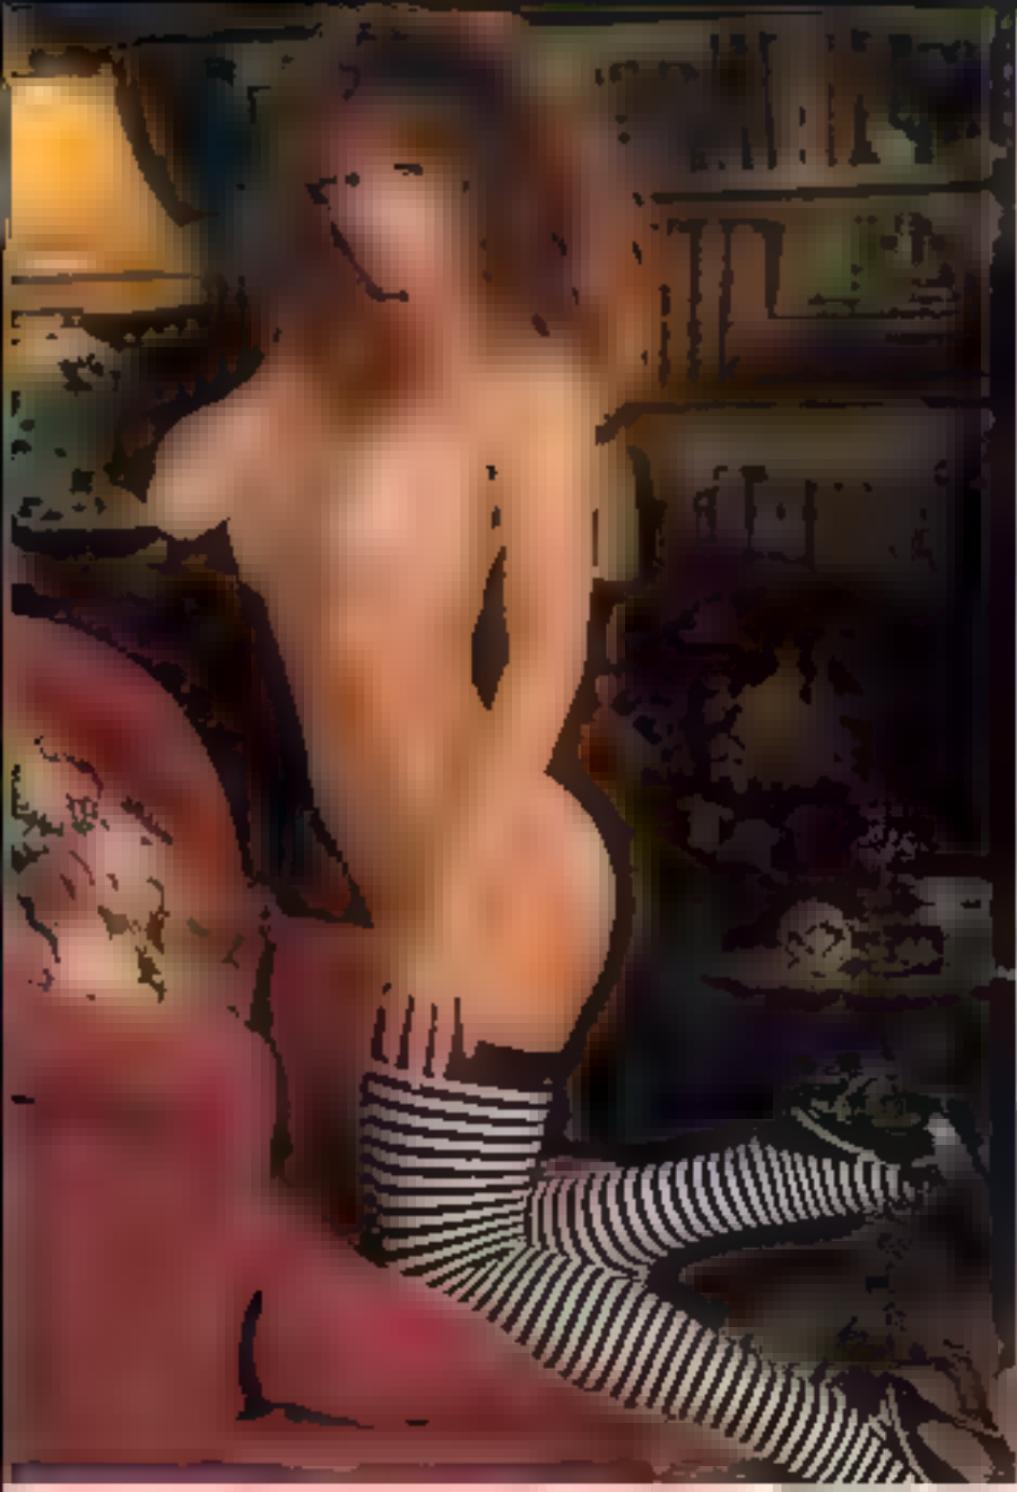

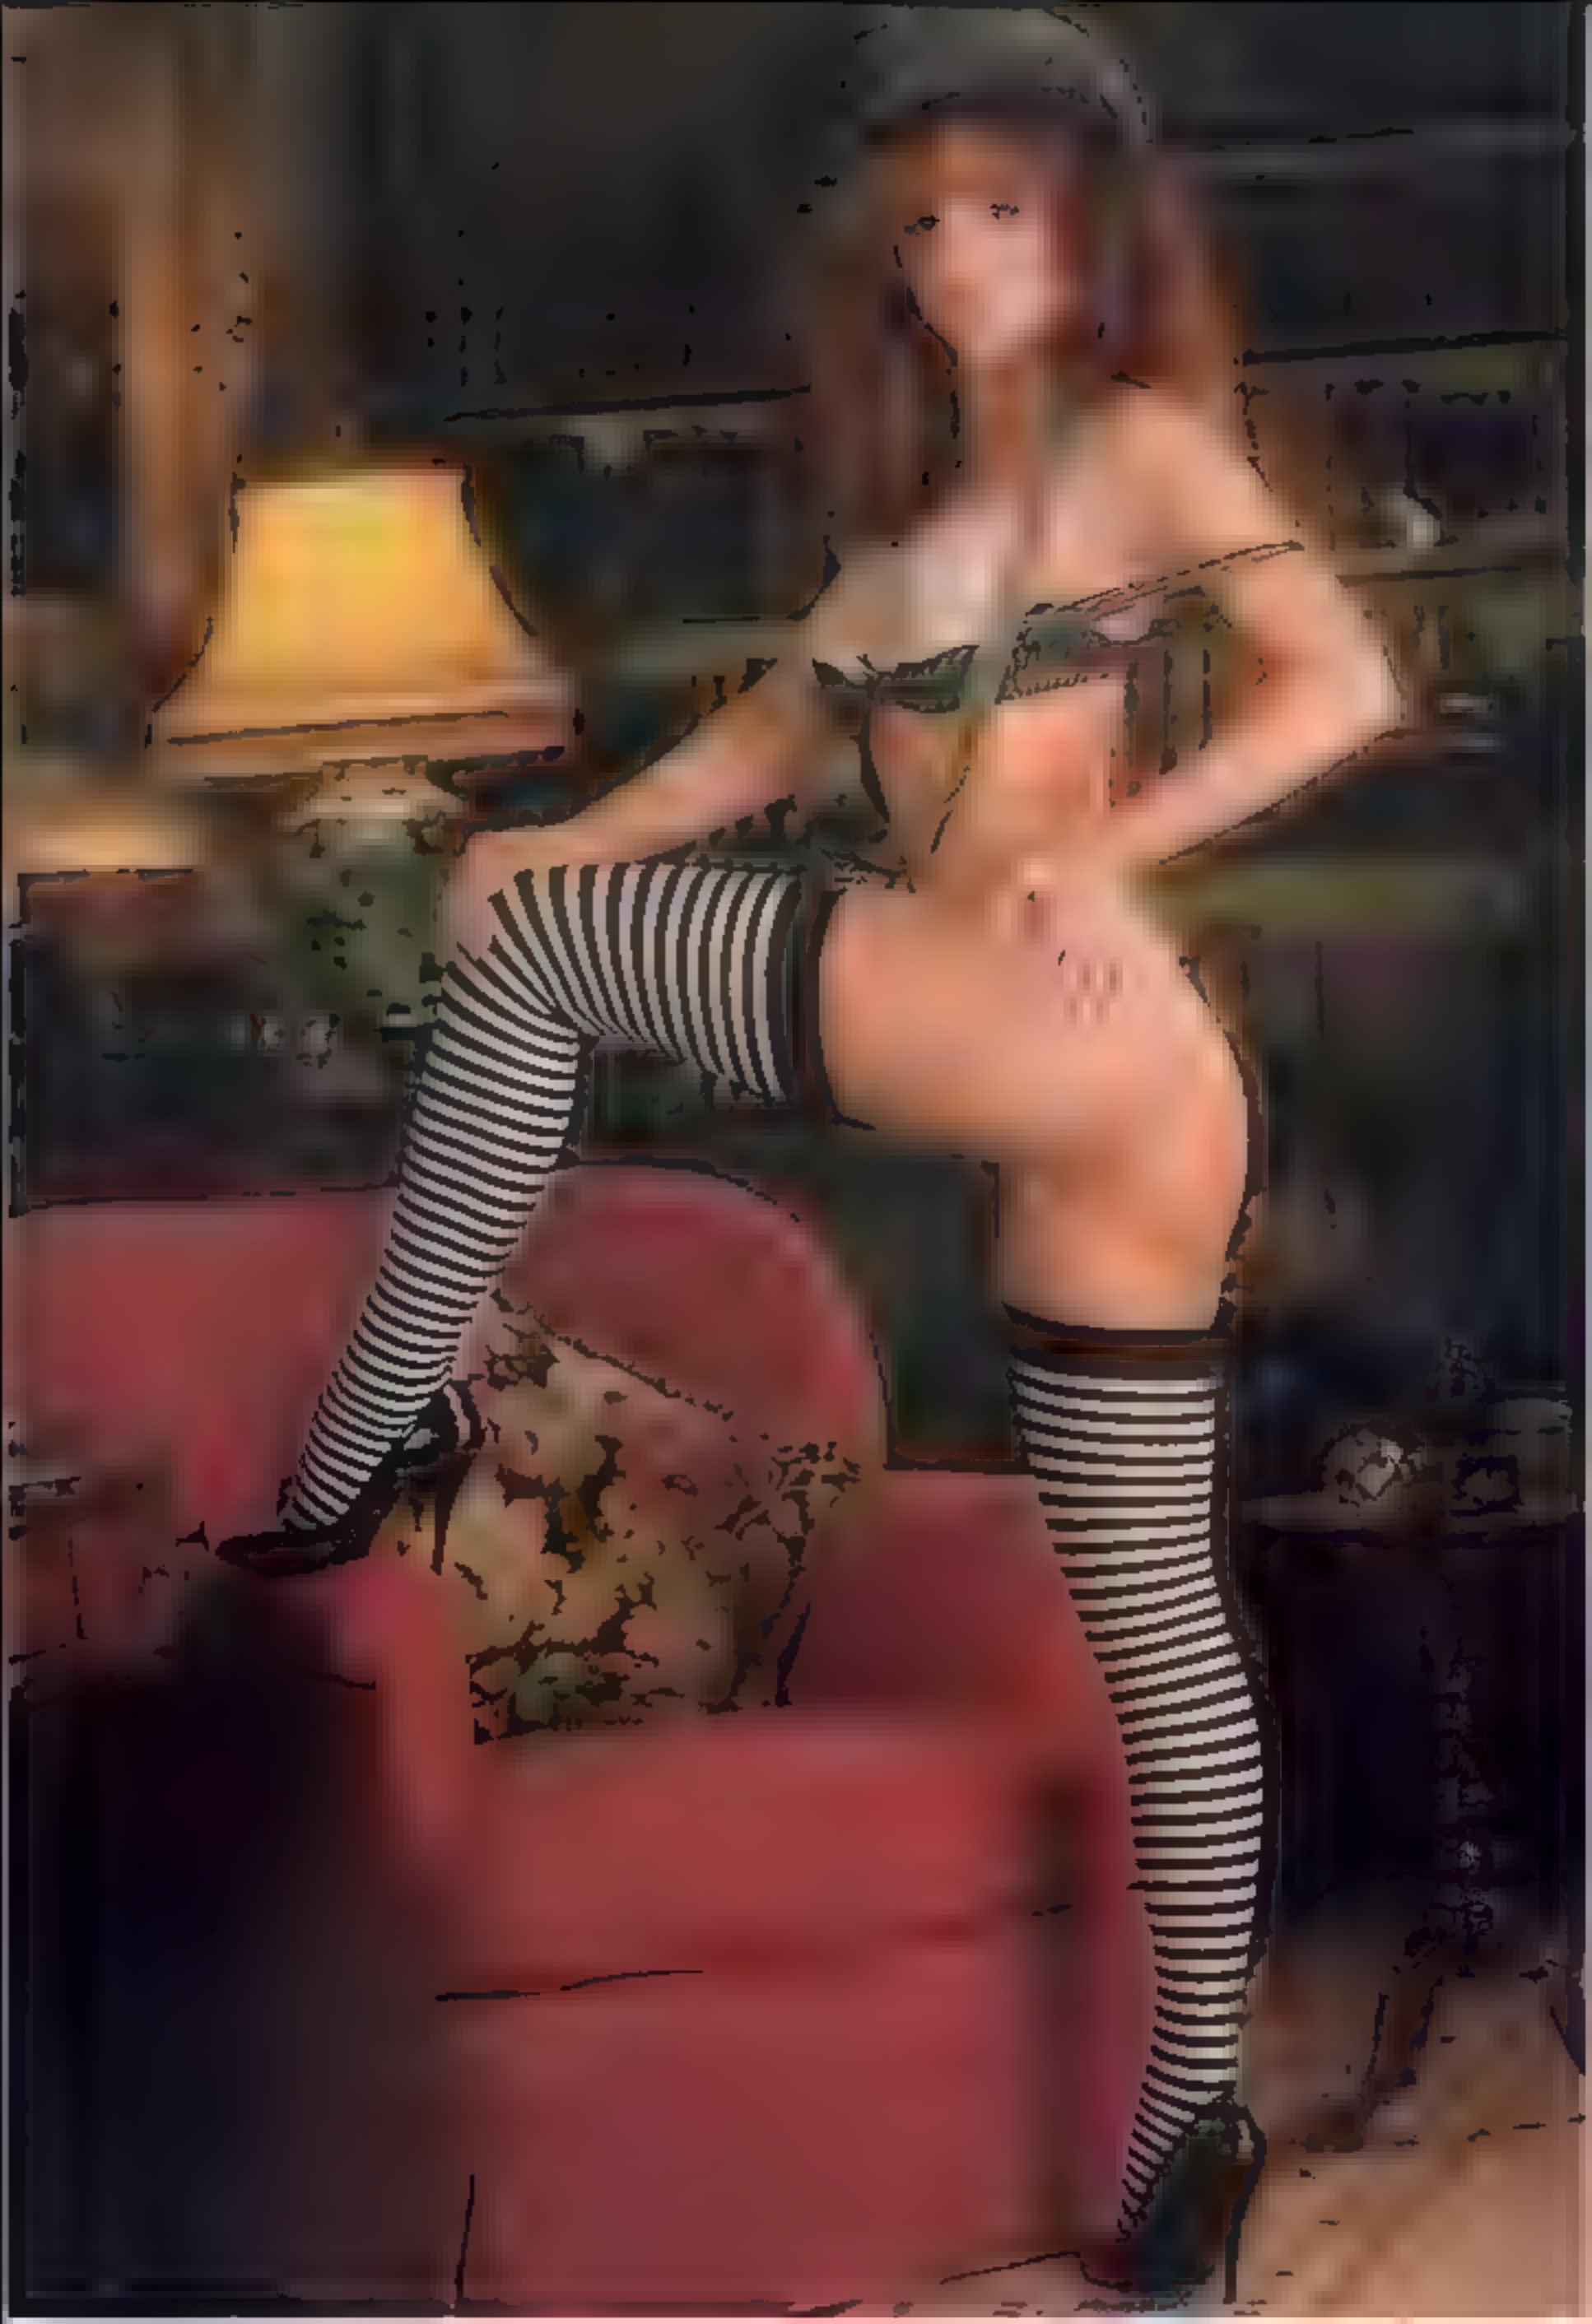

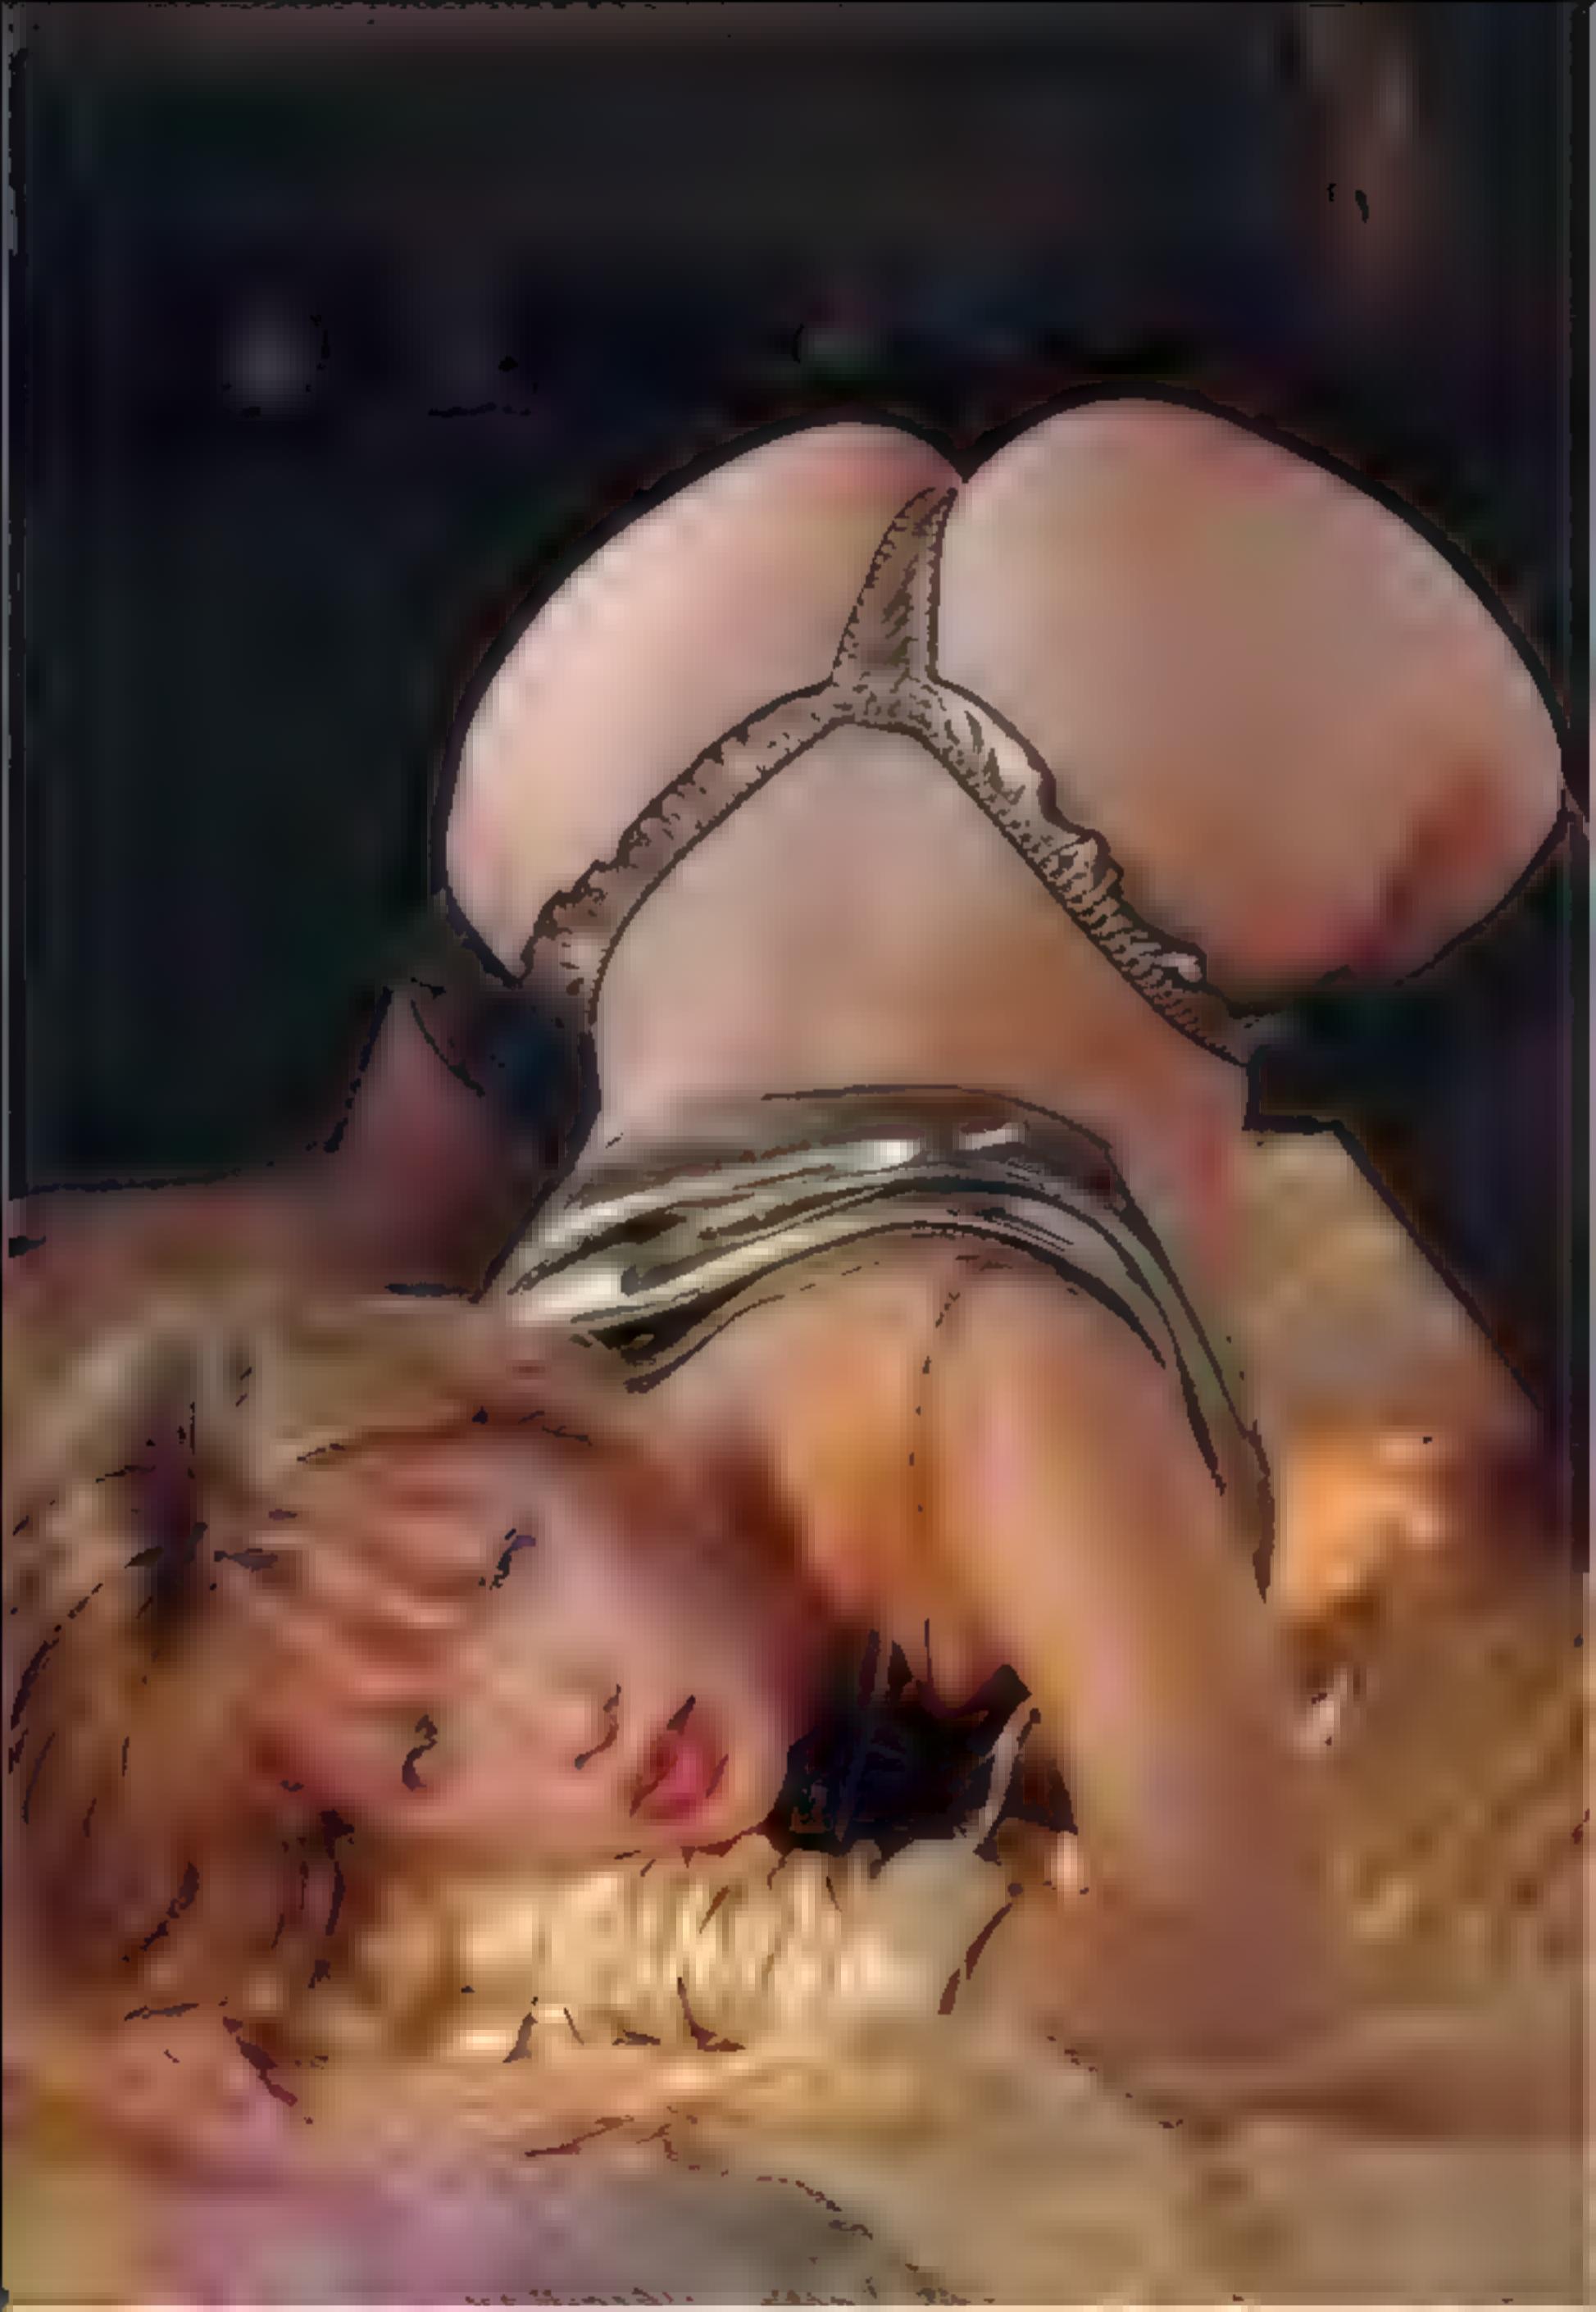

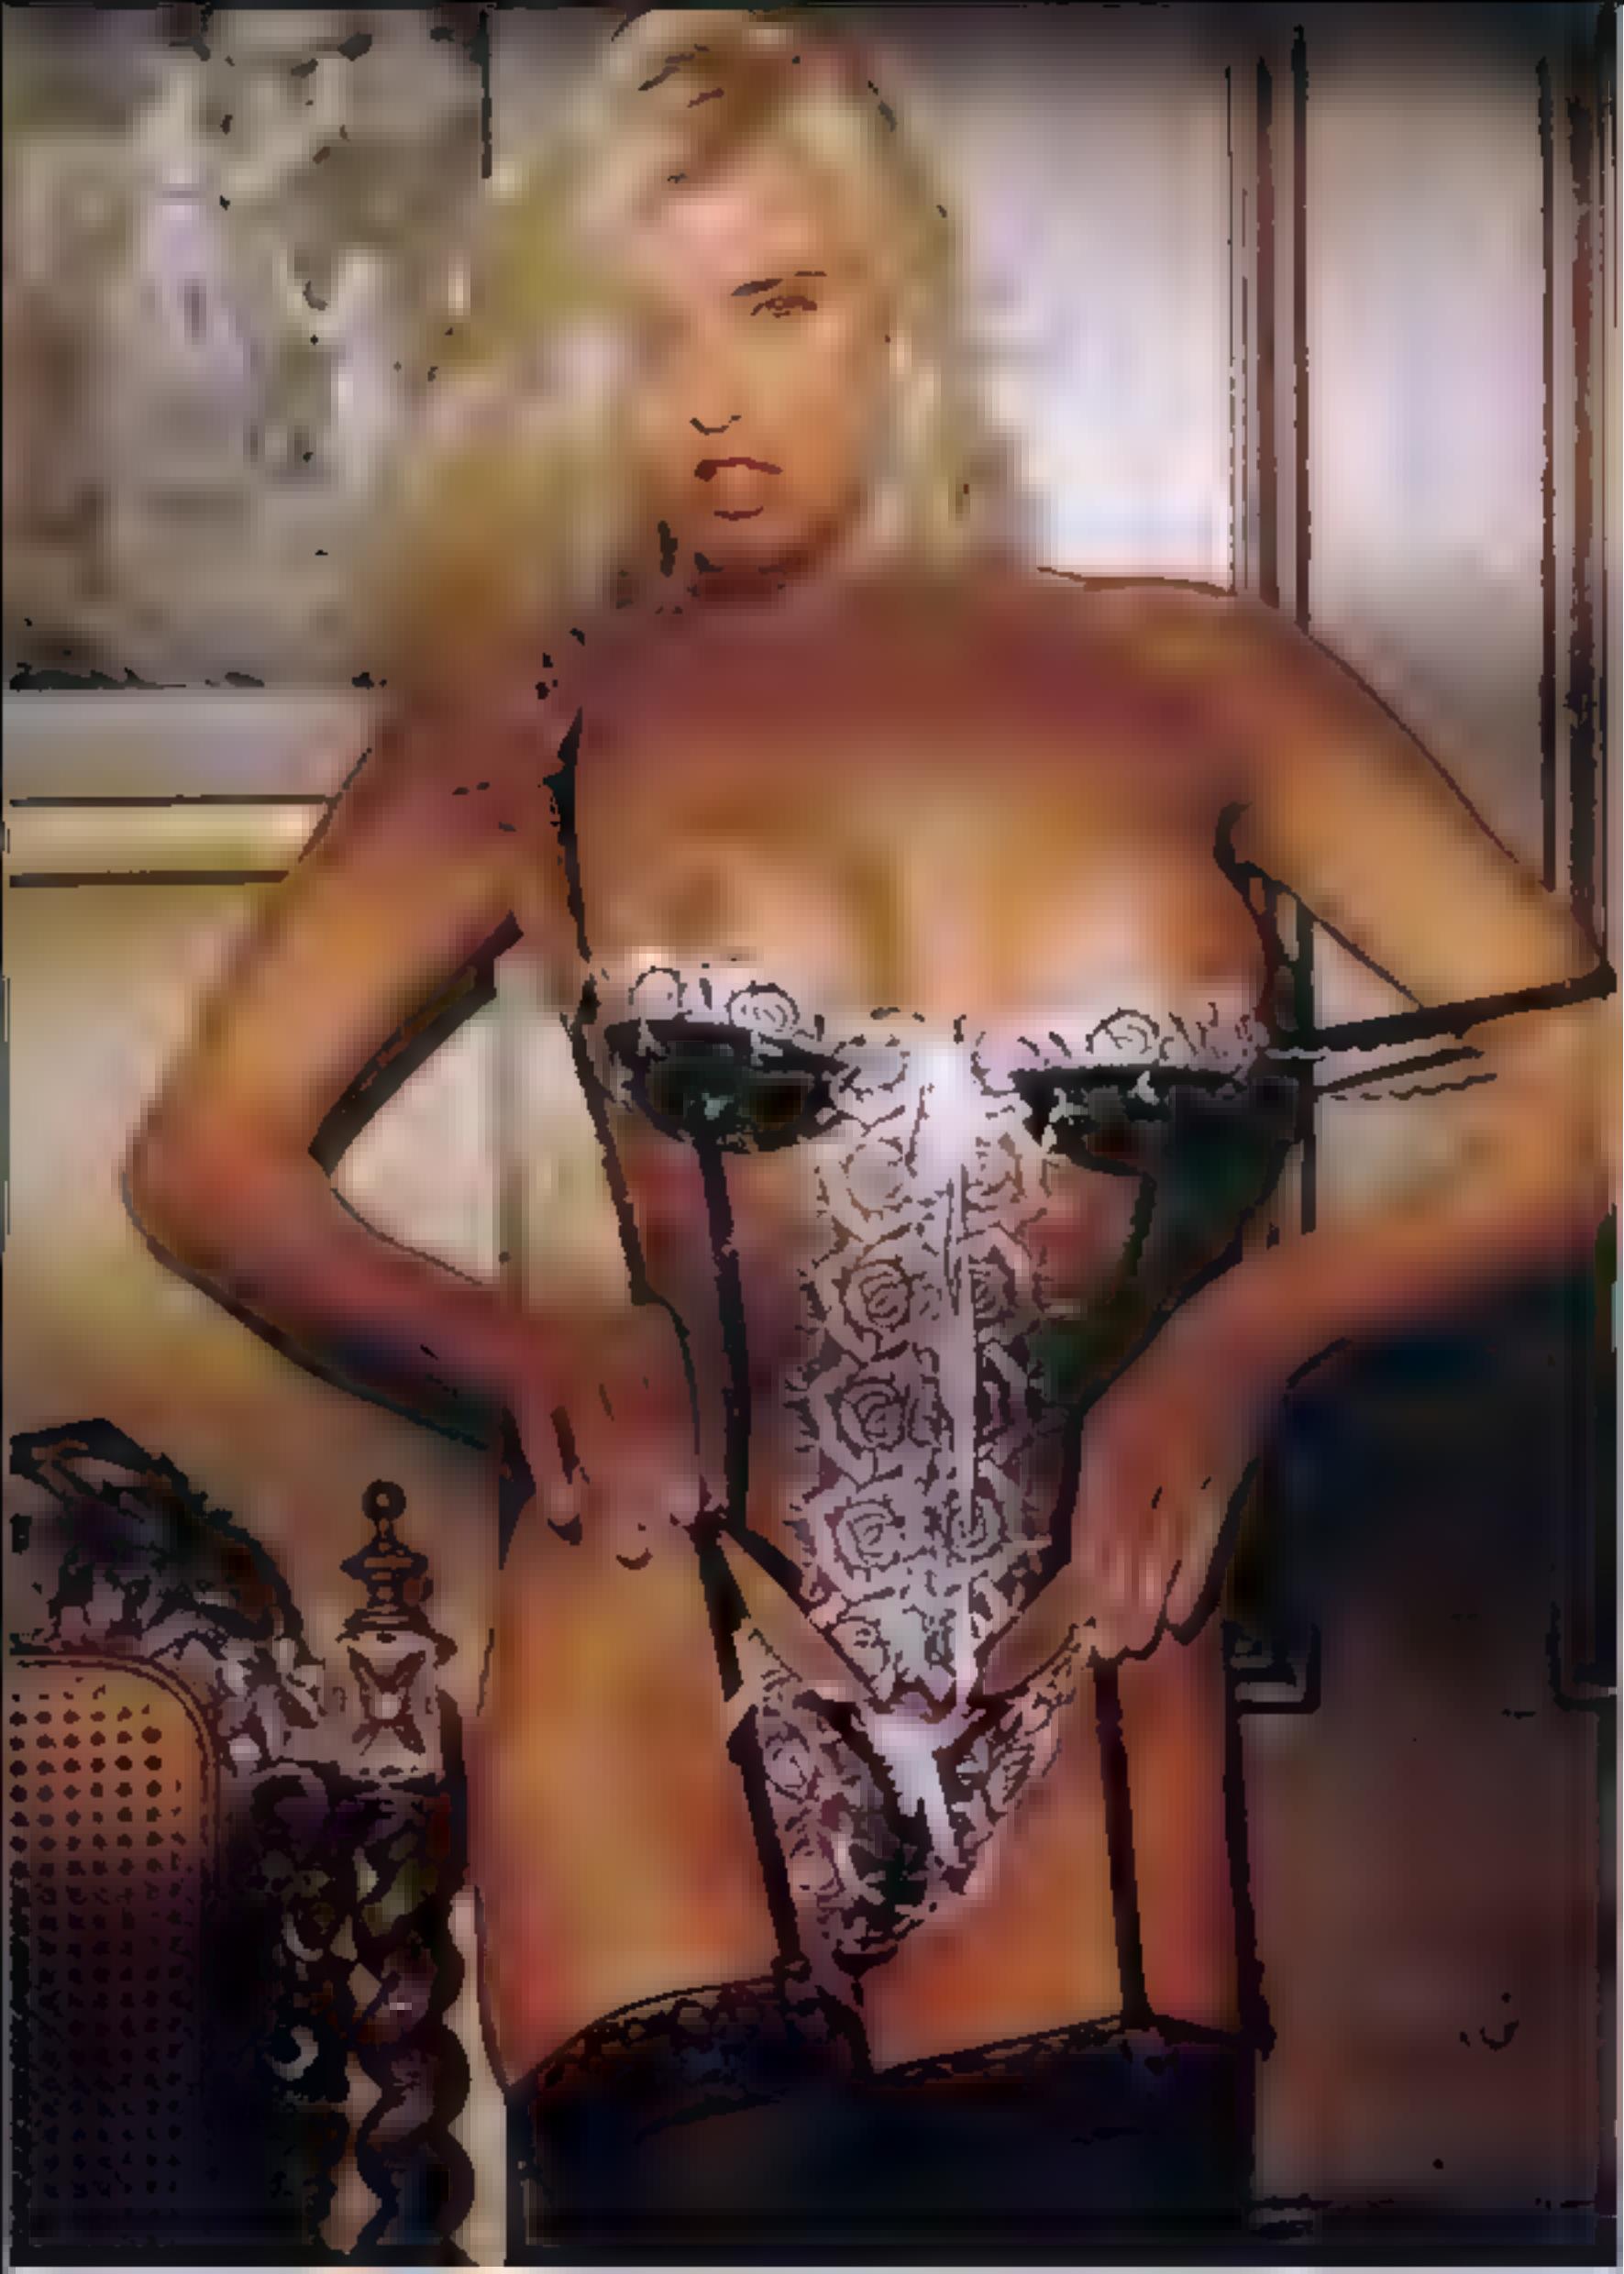

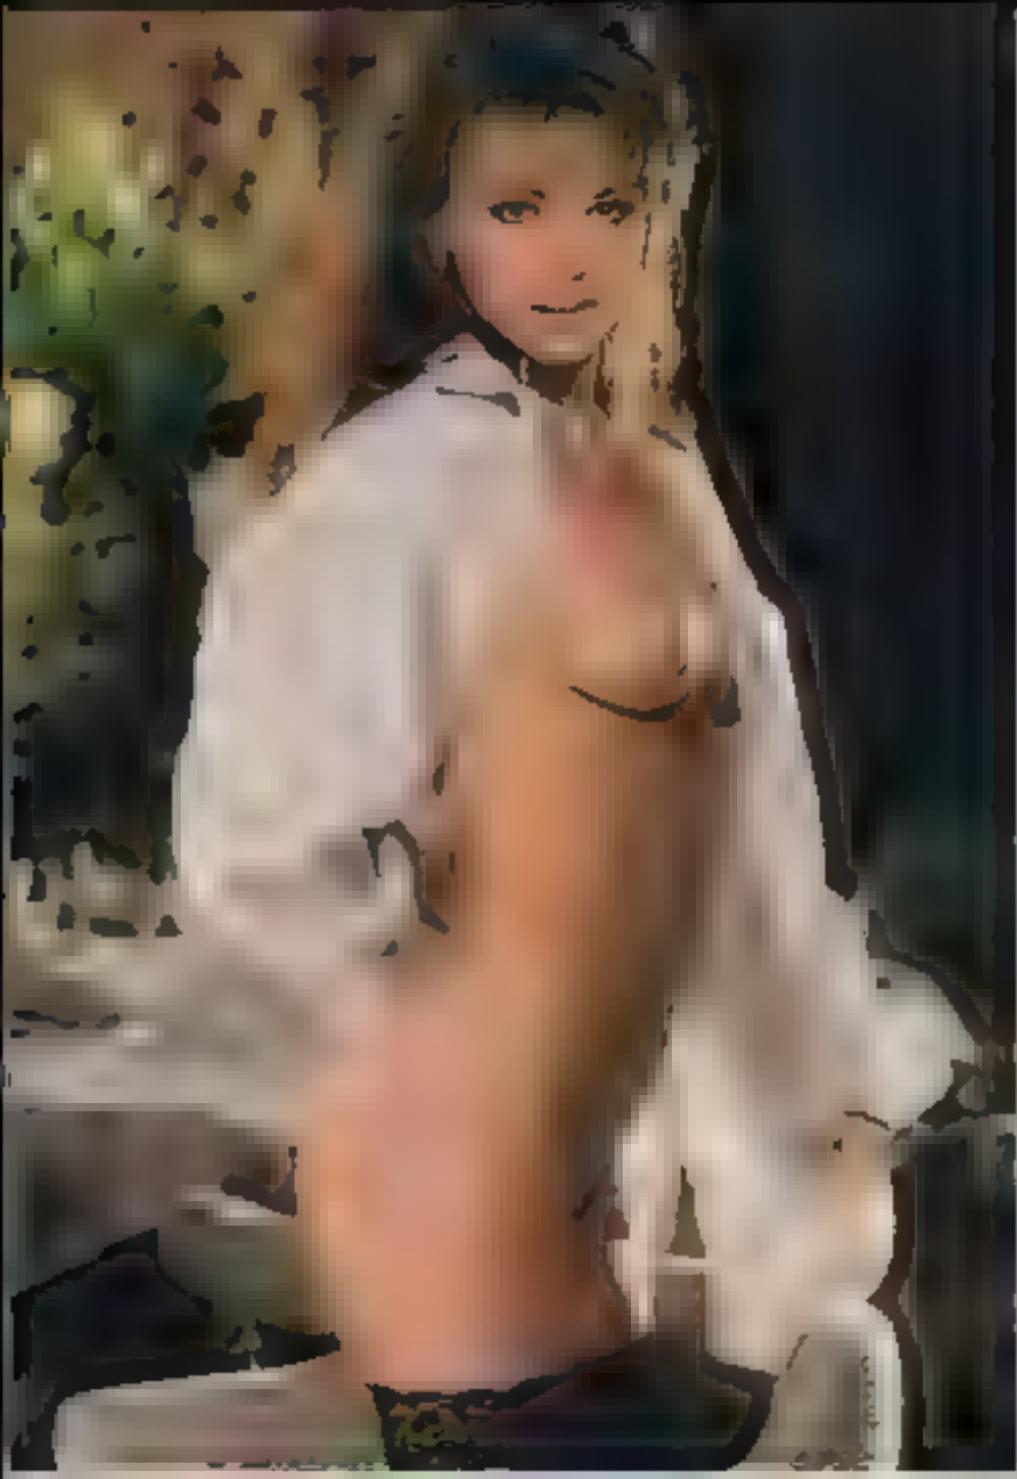

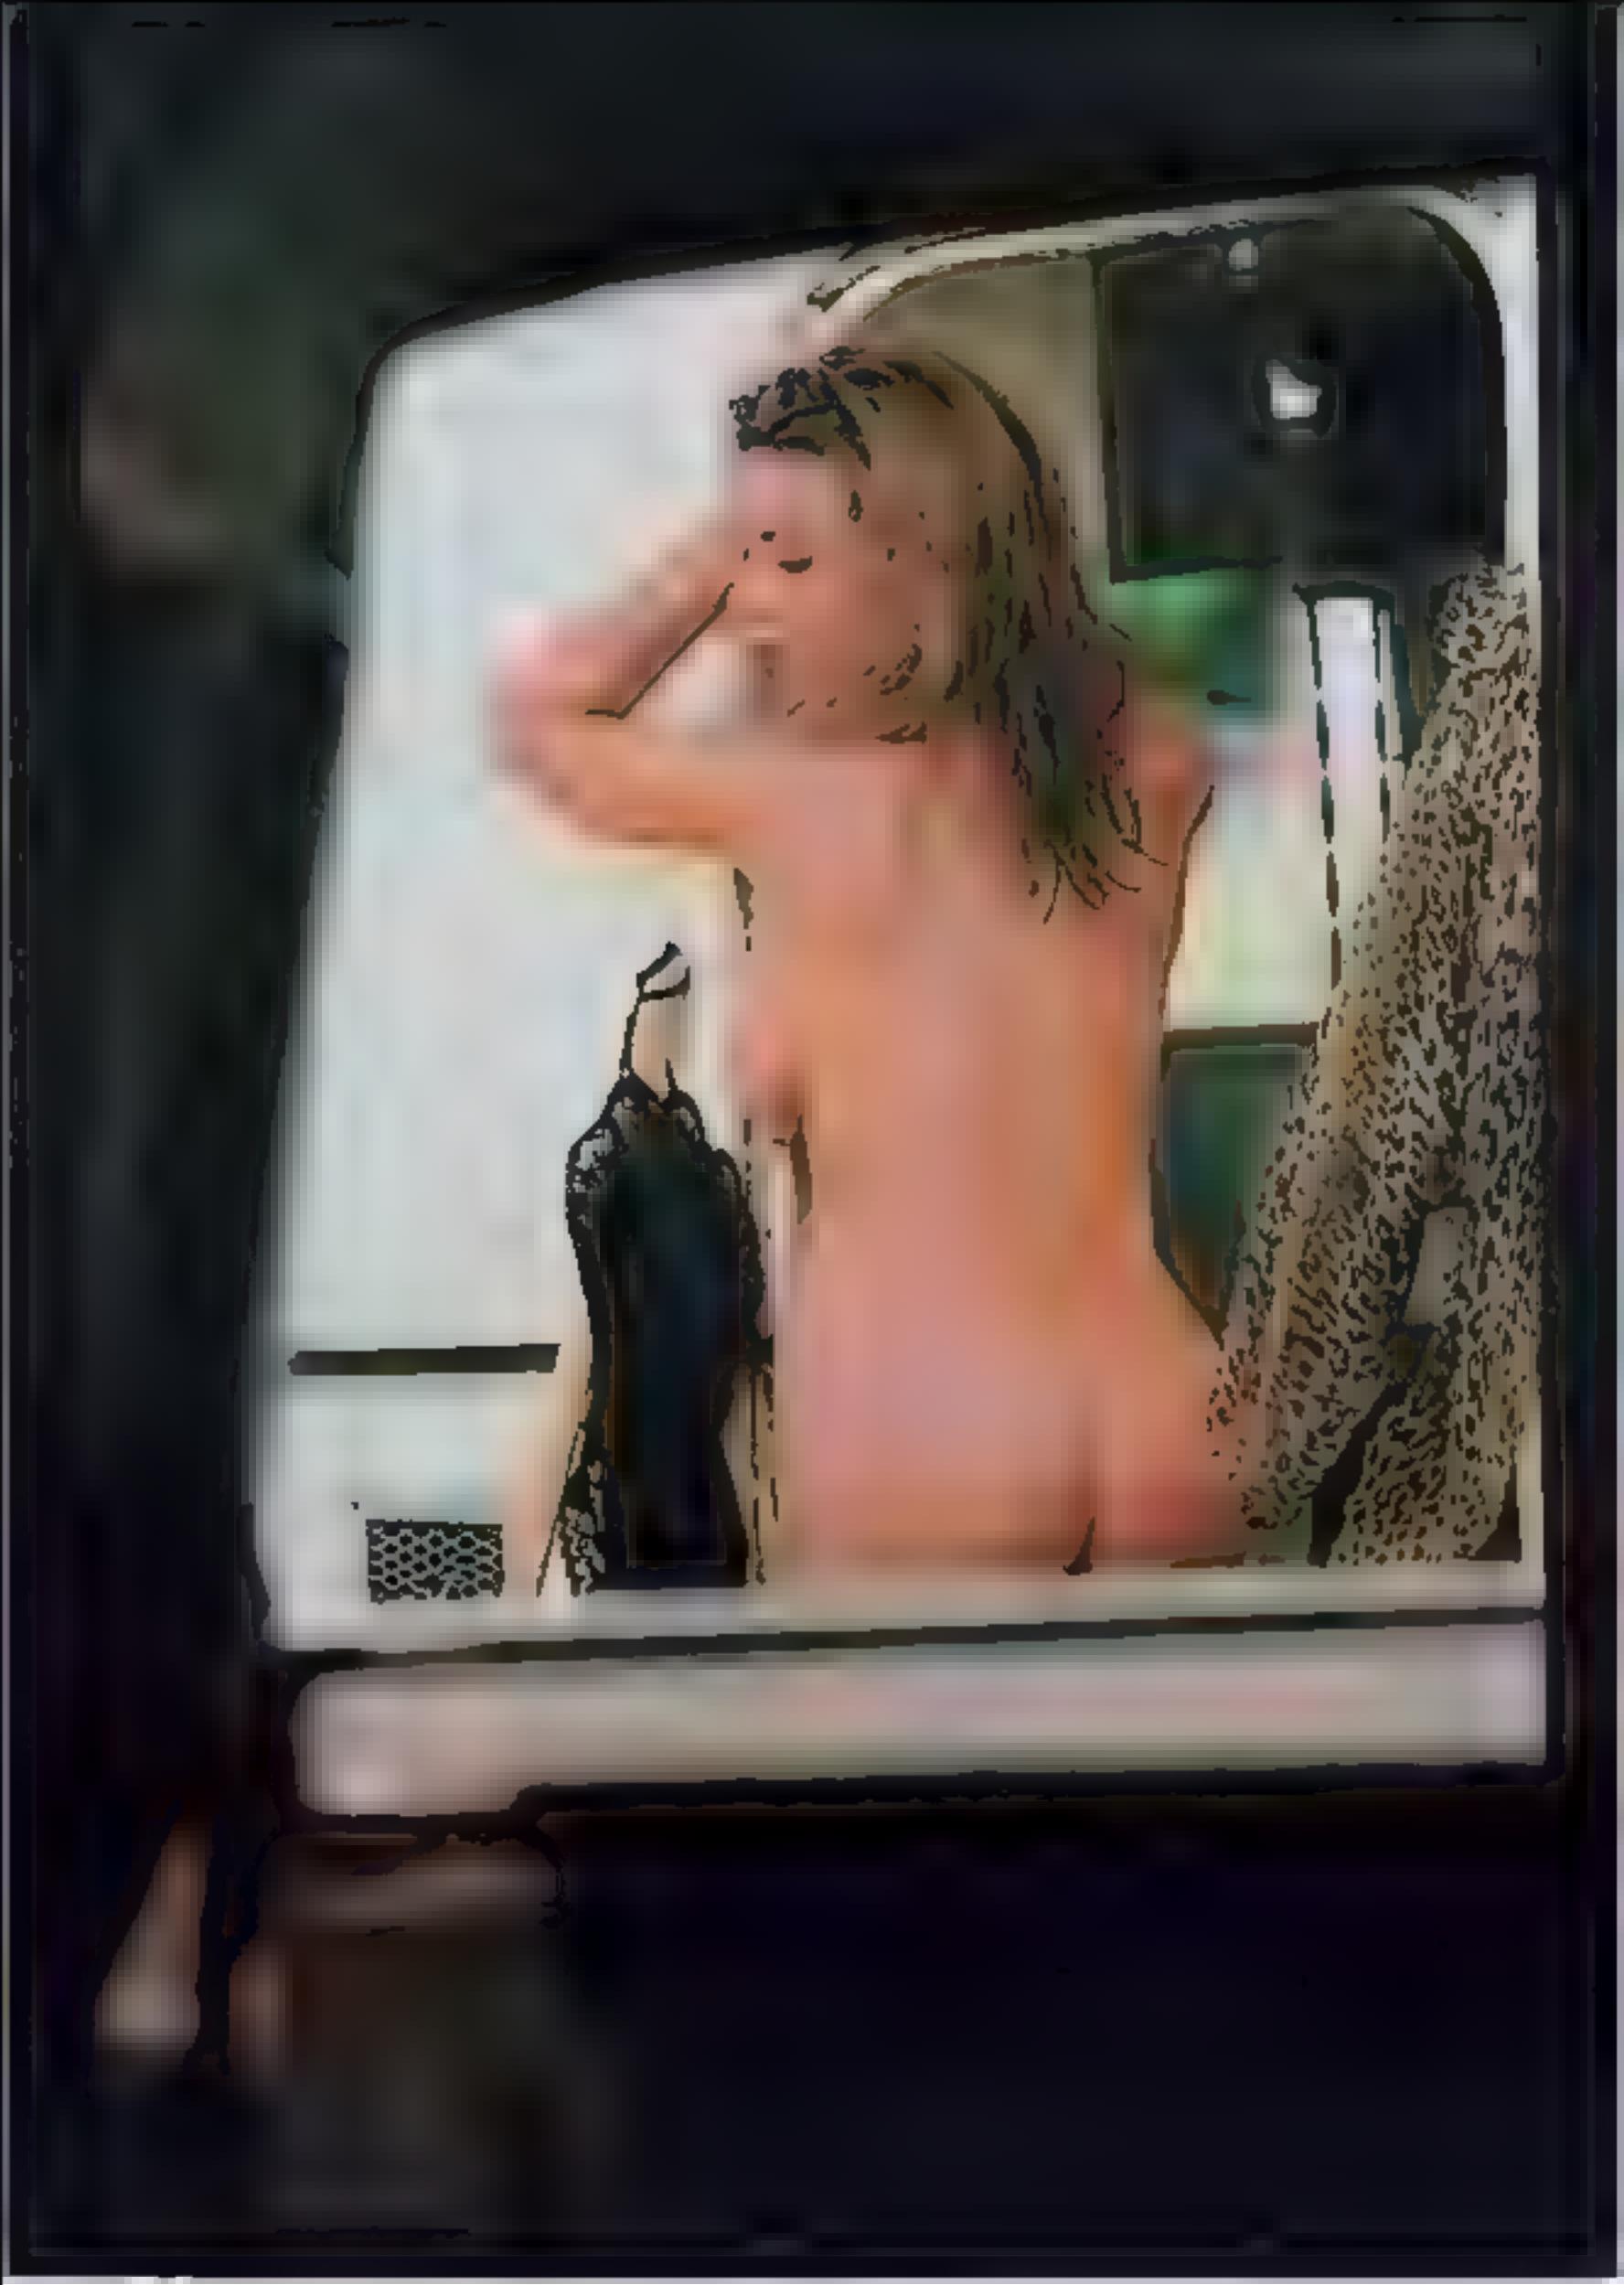

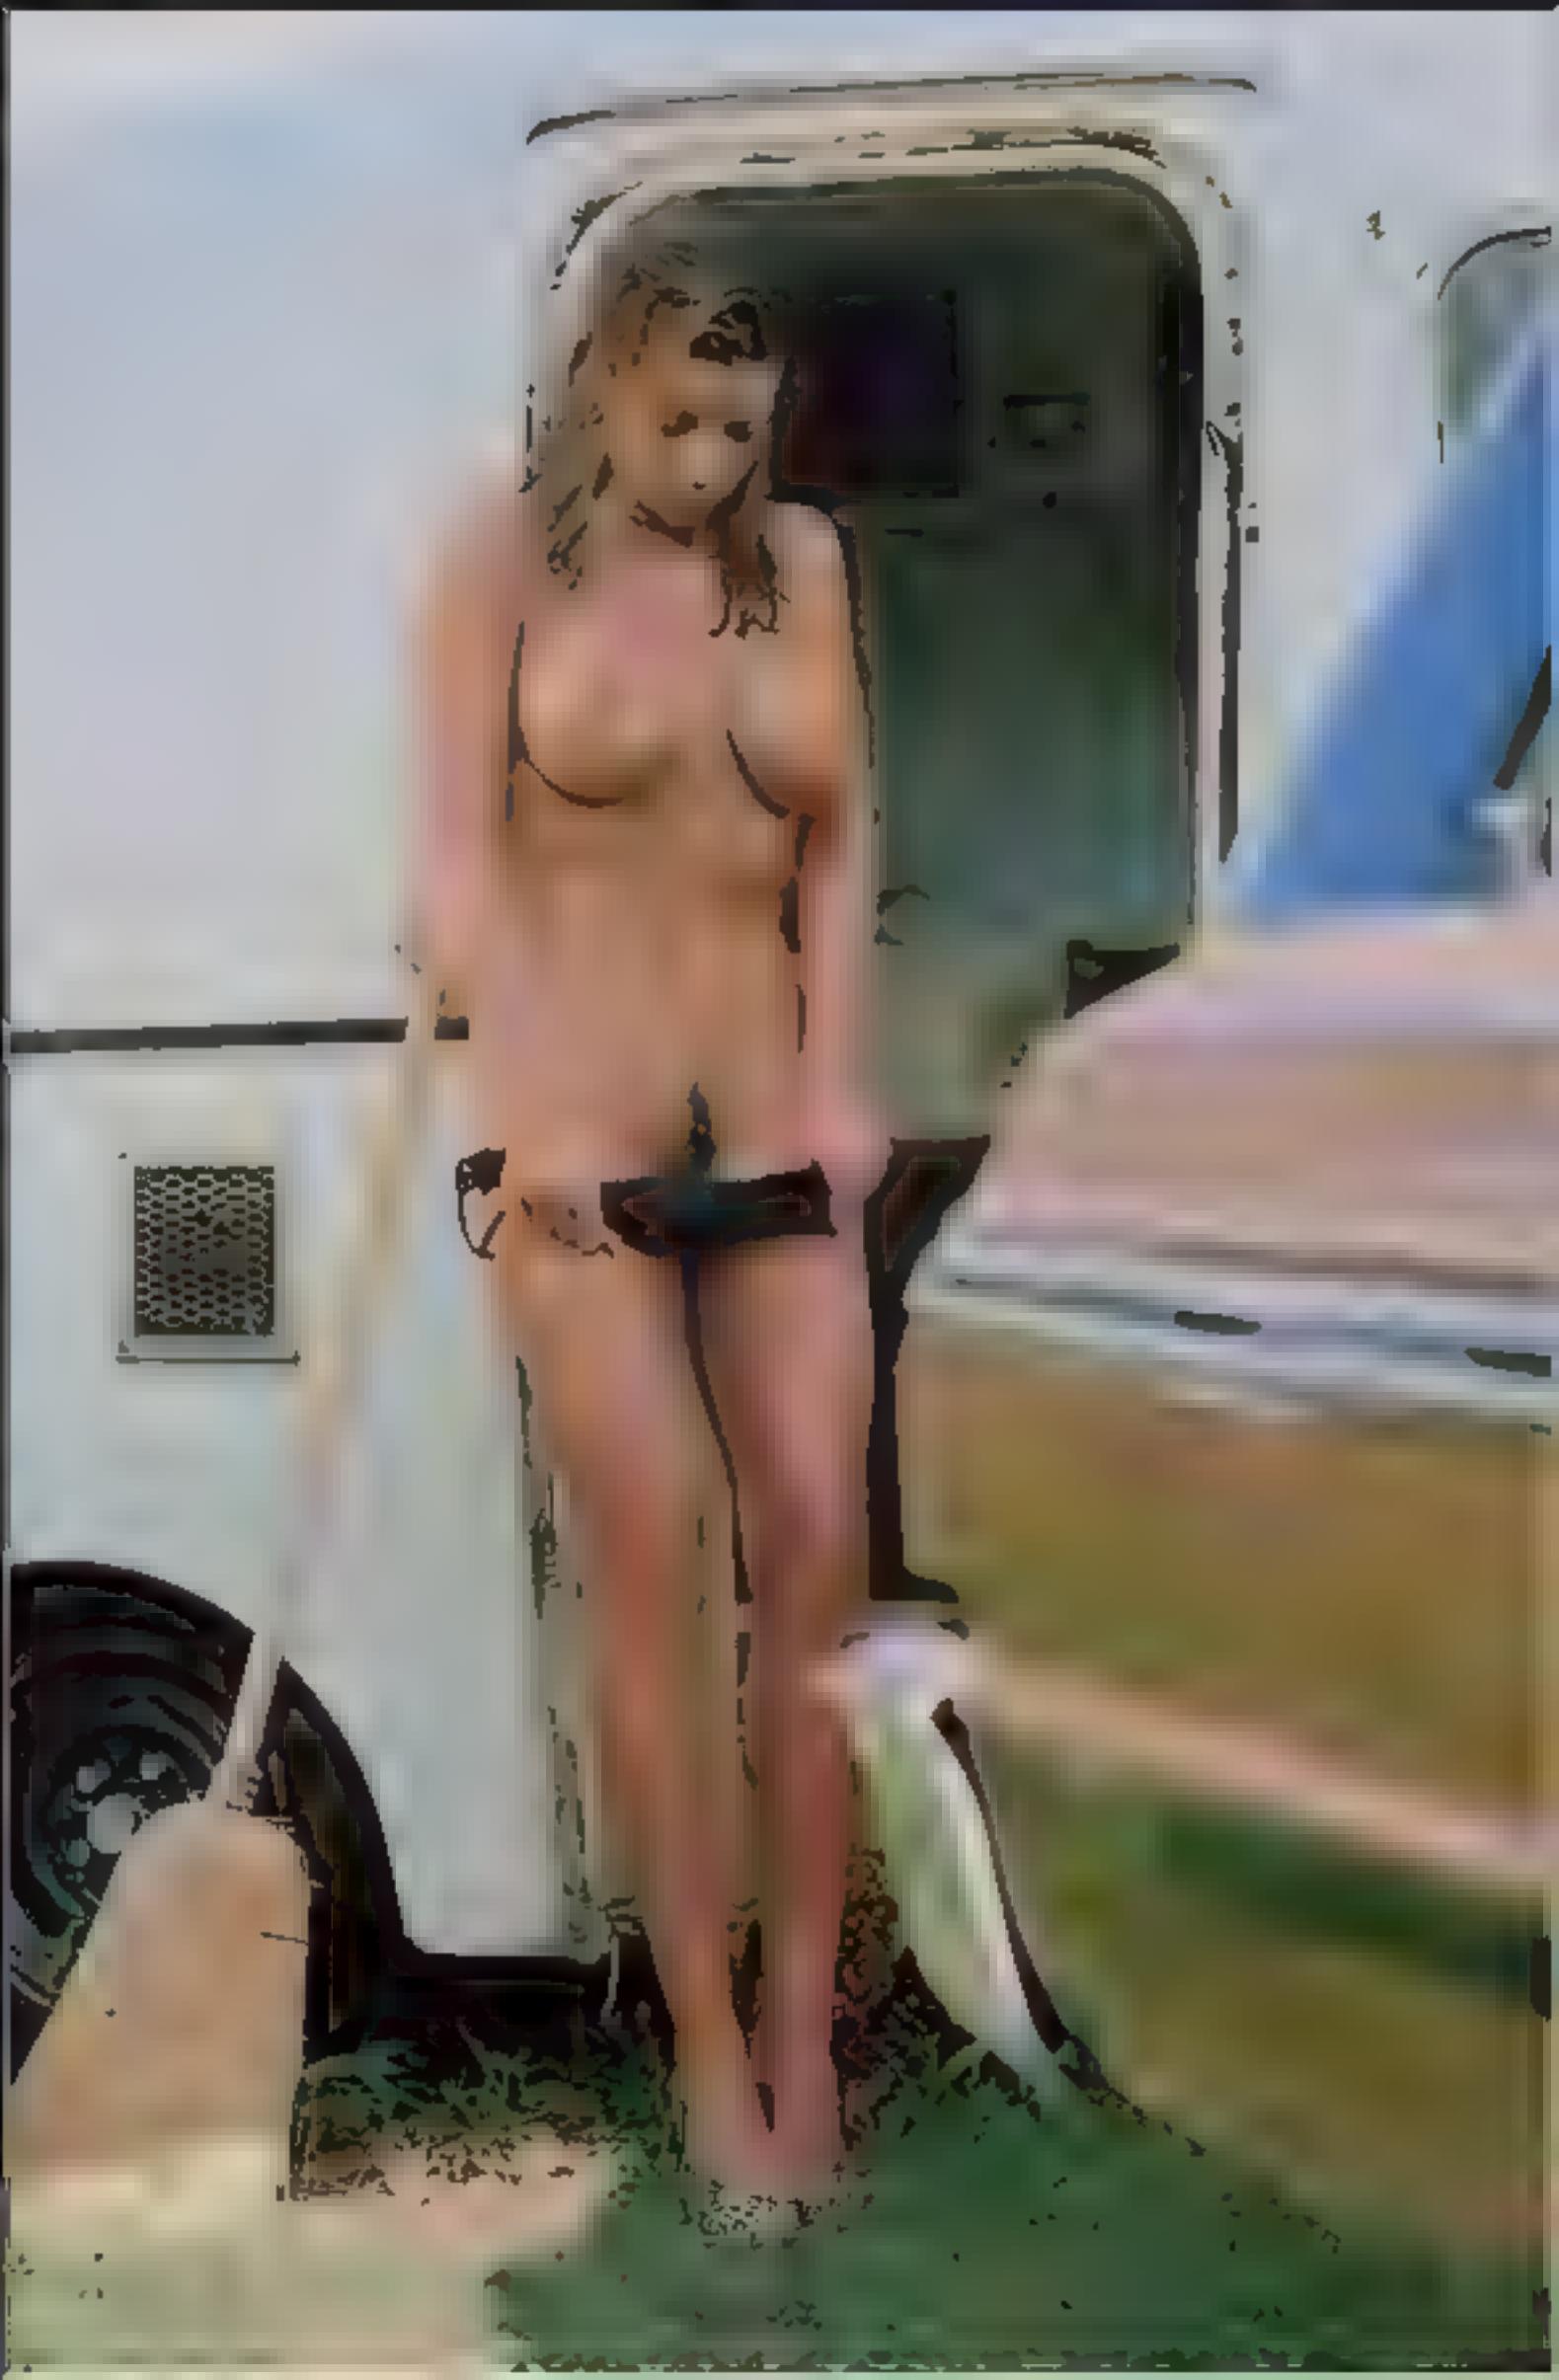

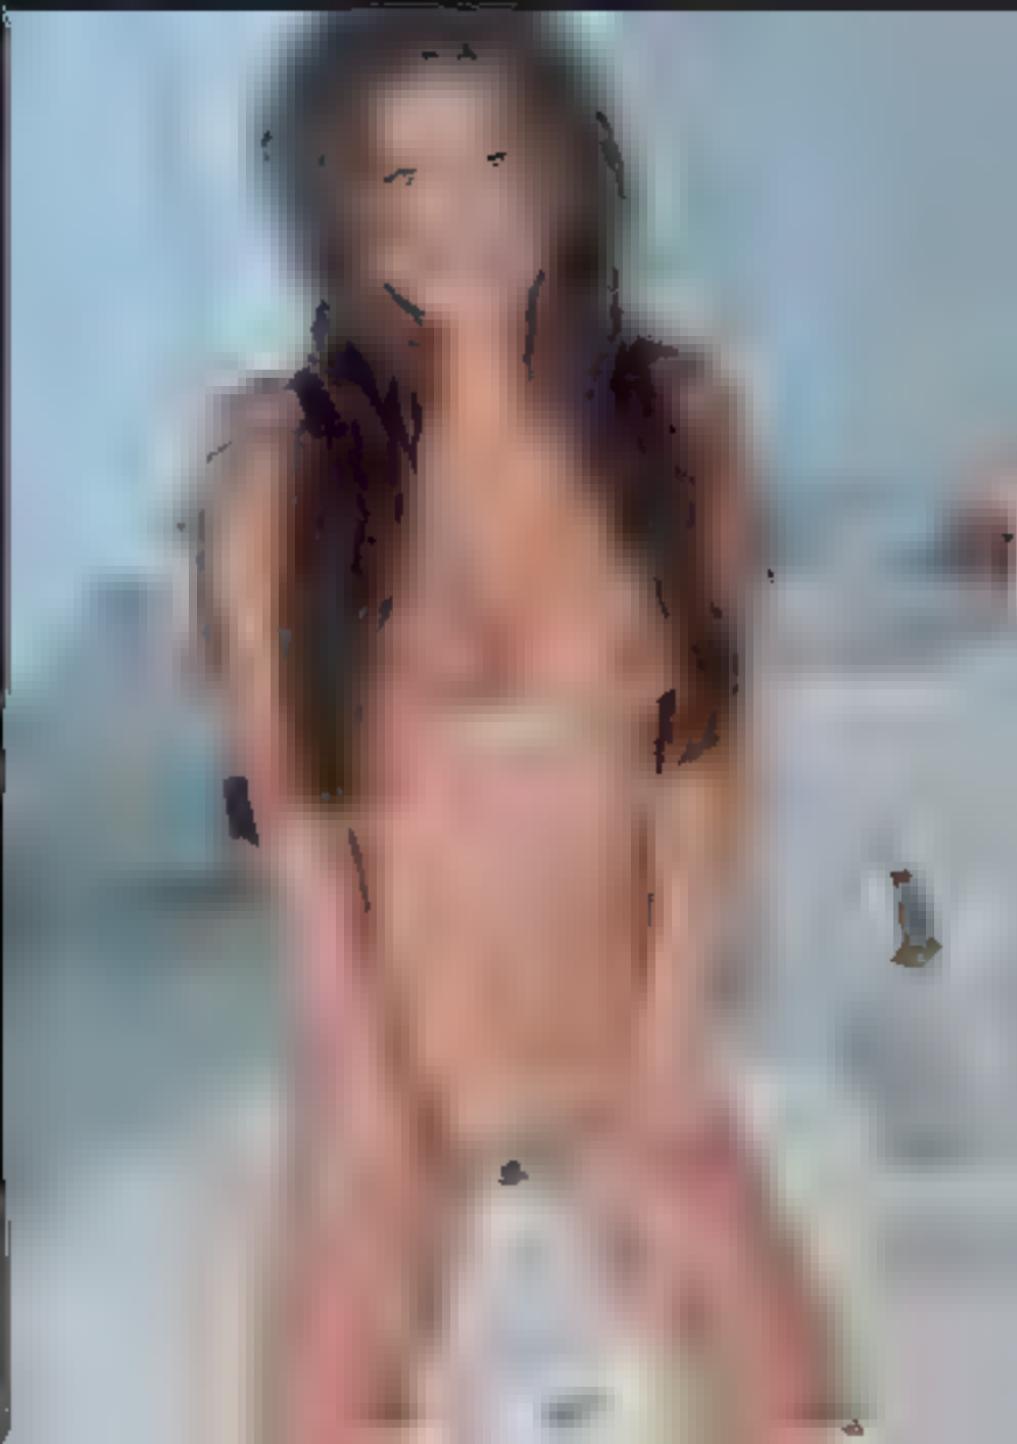

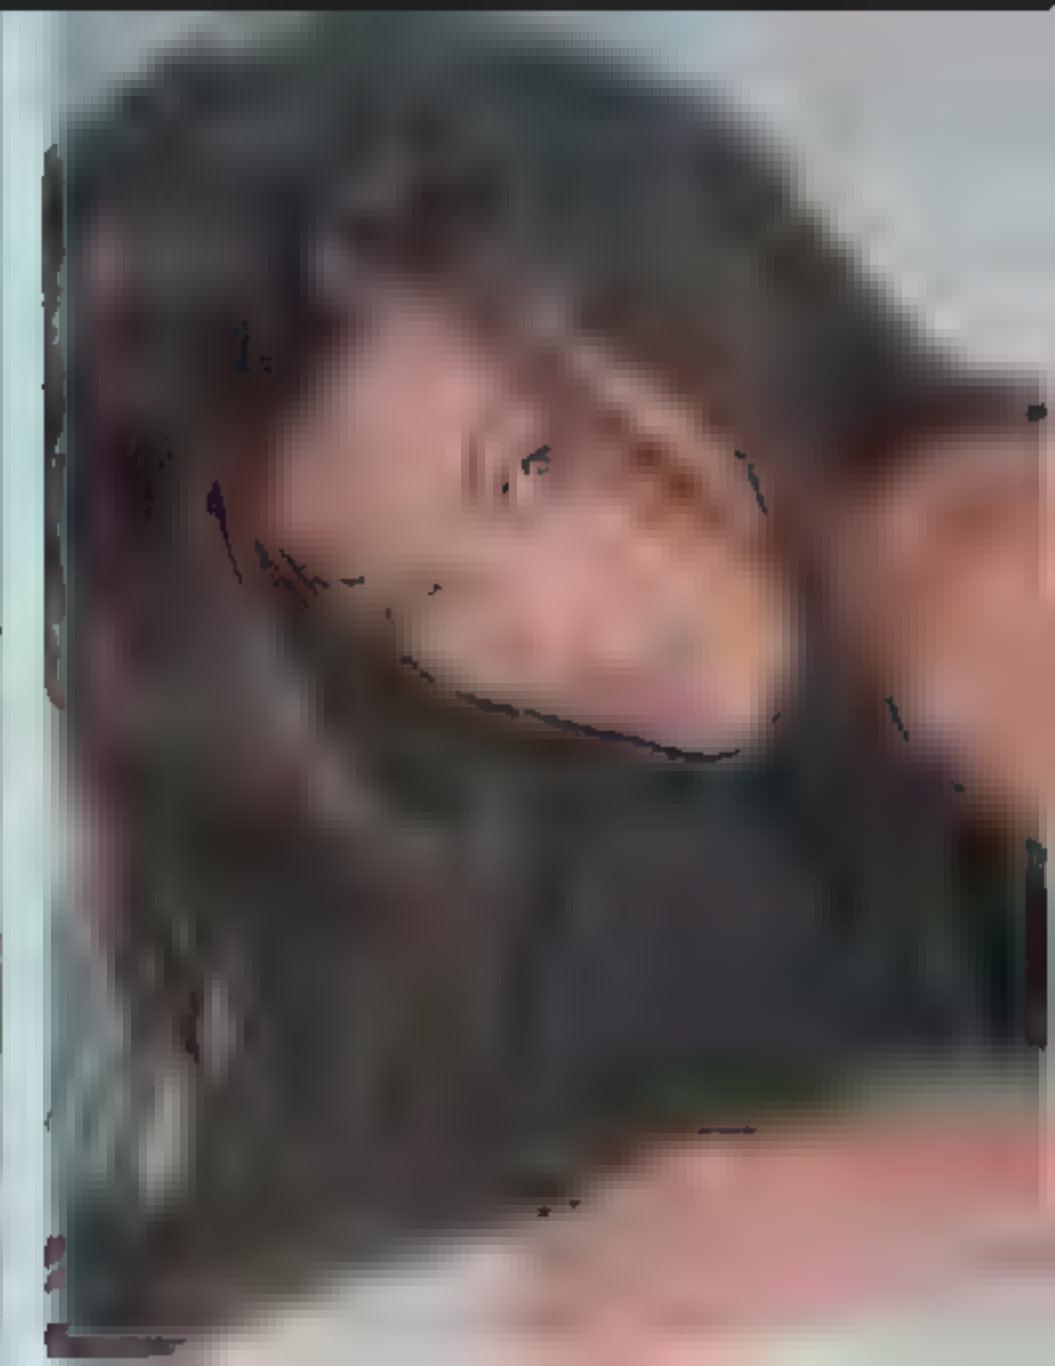

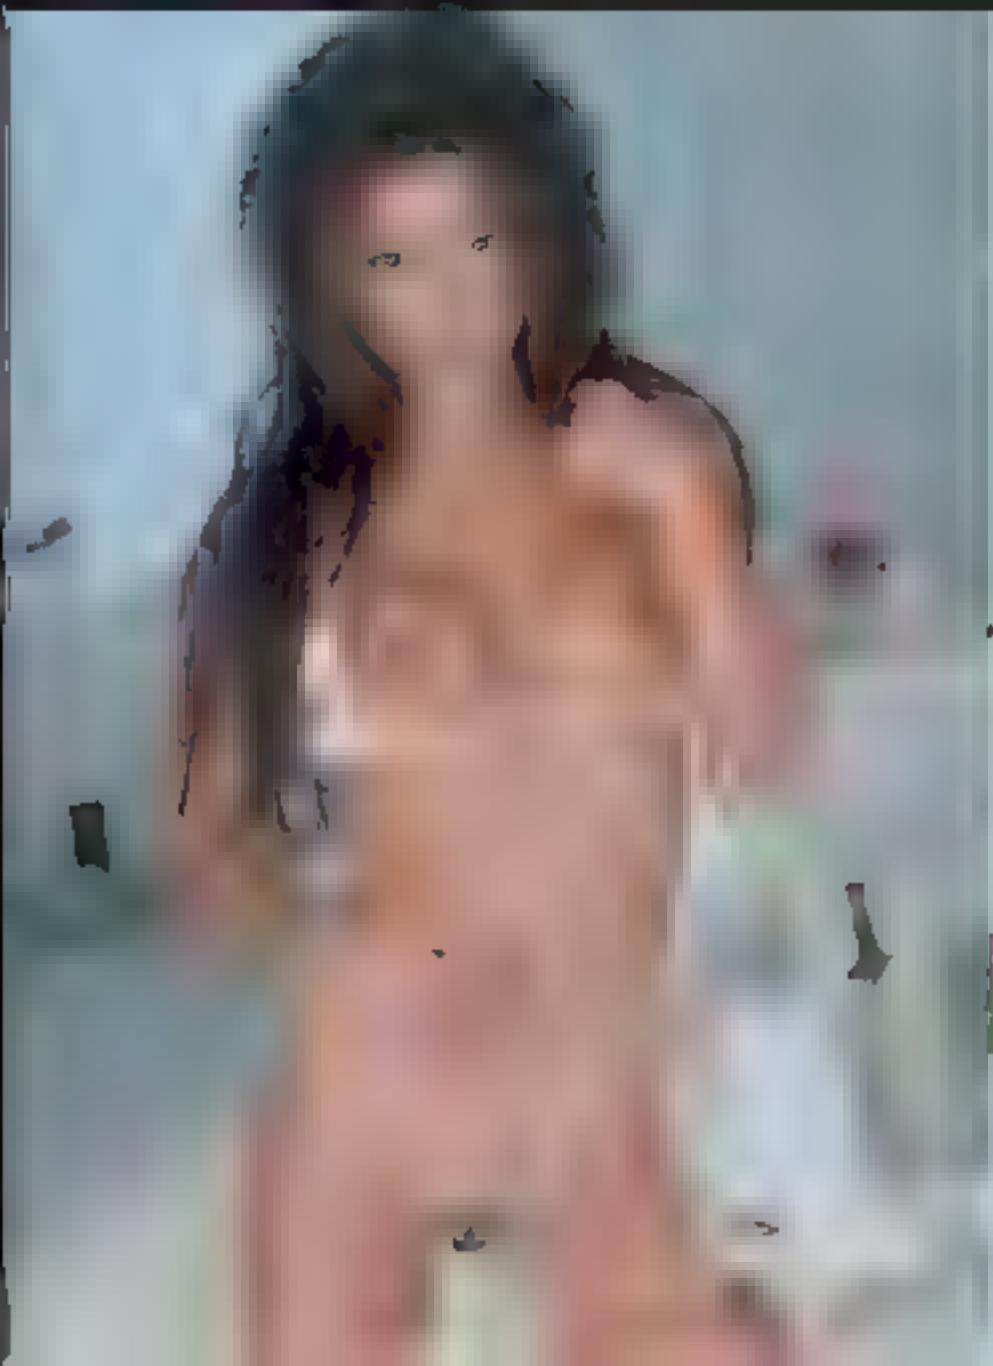

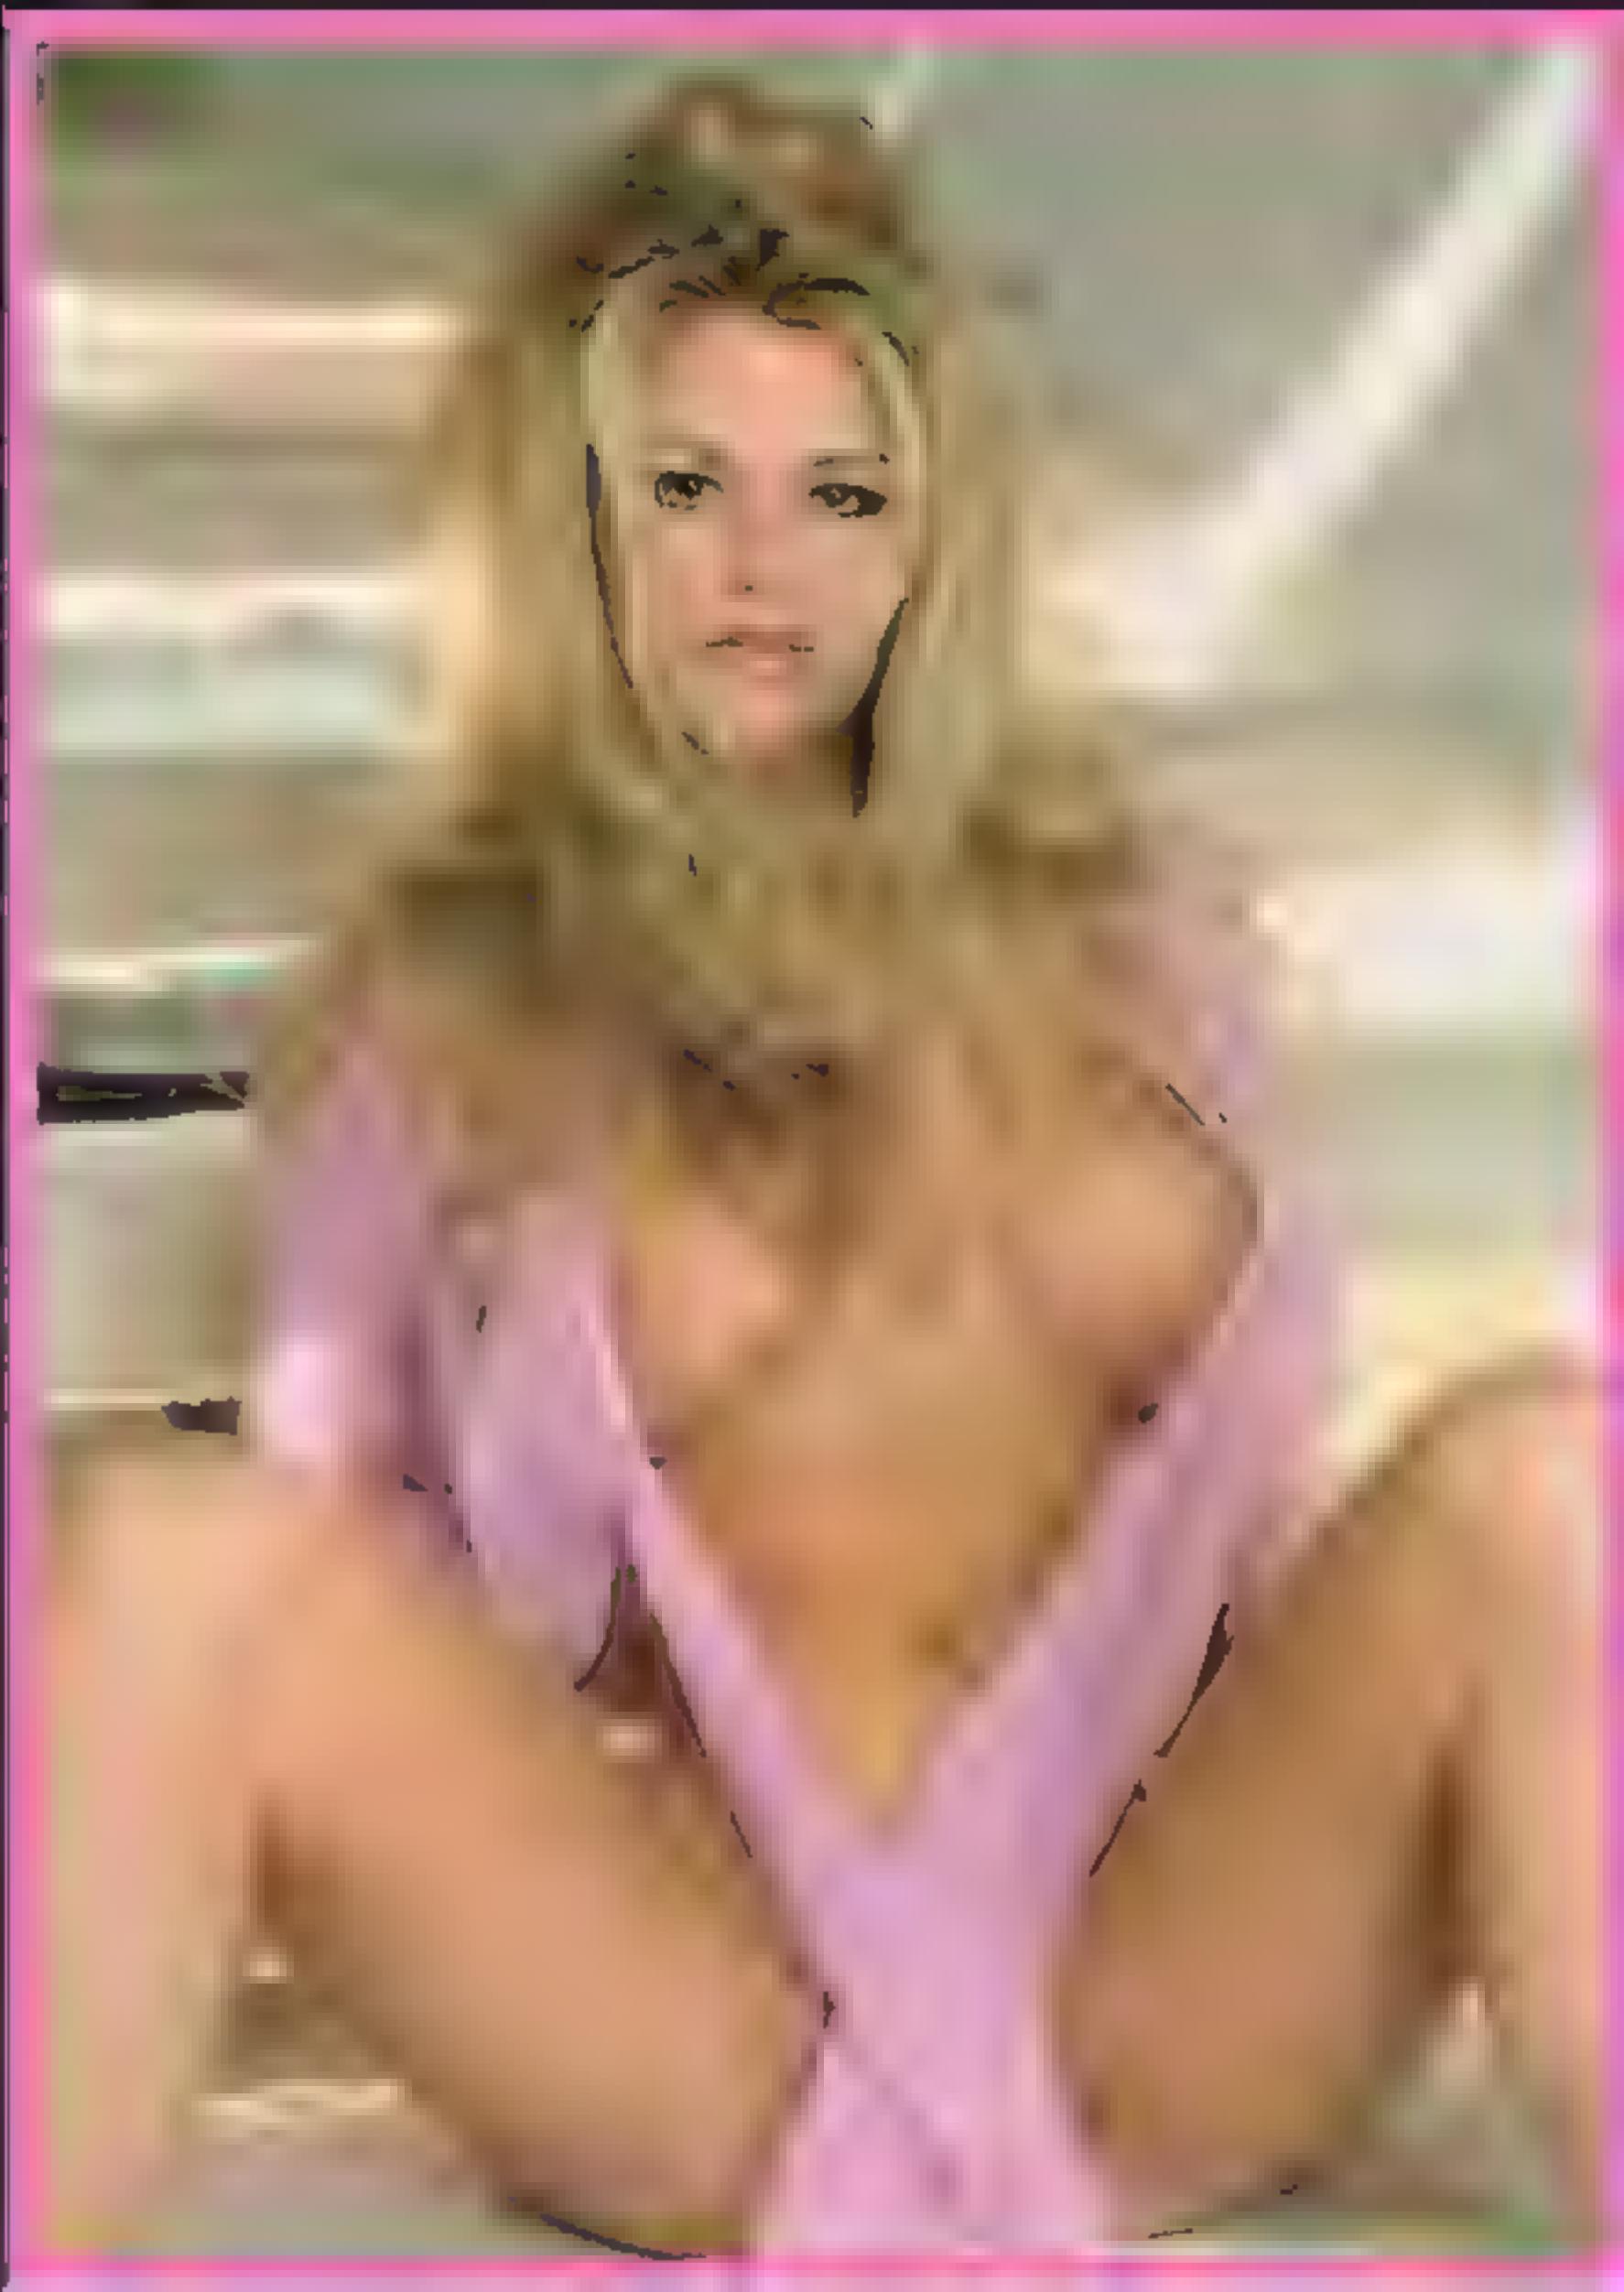

The hardworking little old man here is Spokane. Juniper garb has nothing to lose but his old balls. It's a surefire bet the hardy heart of this old man would go up in flames if you lit his pipe.

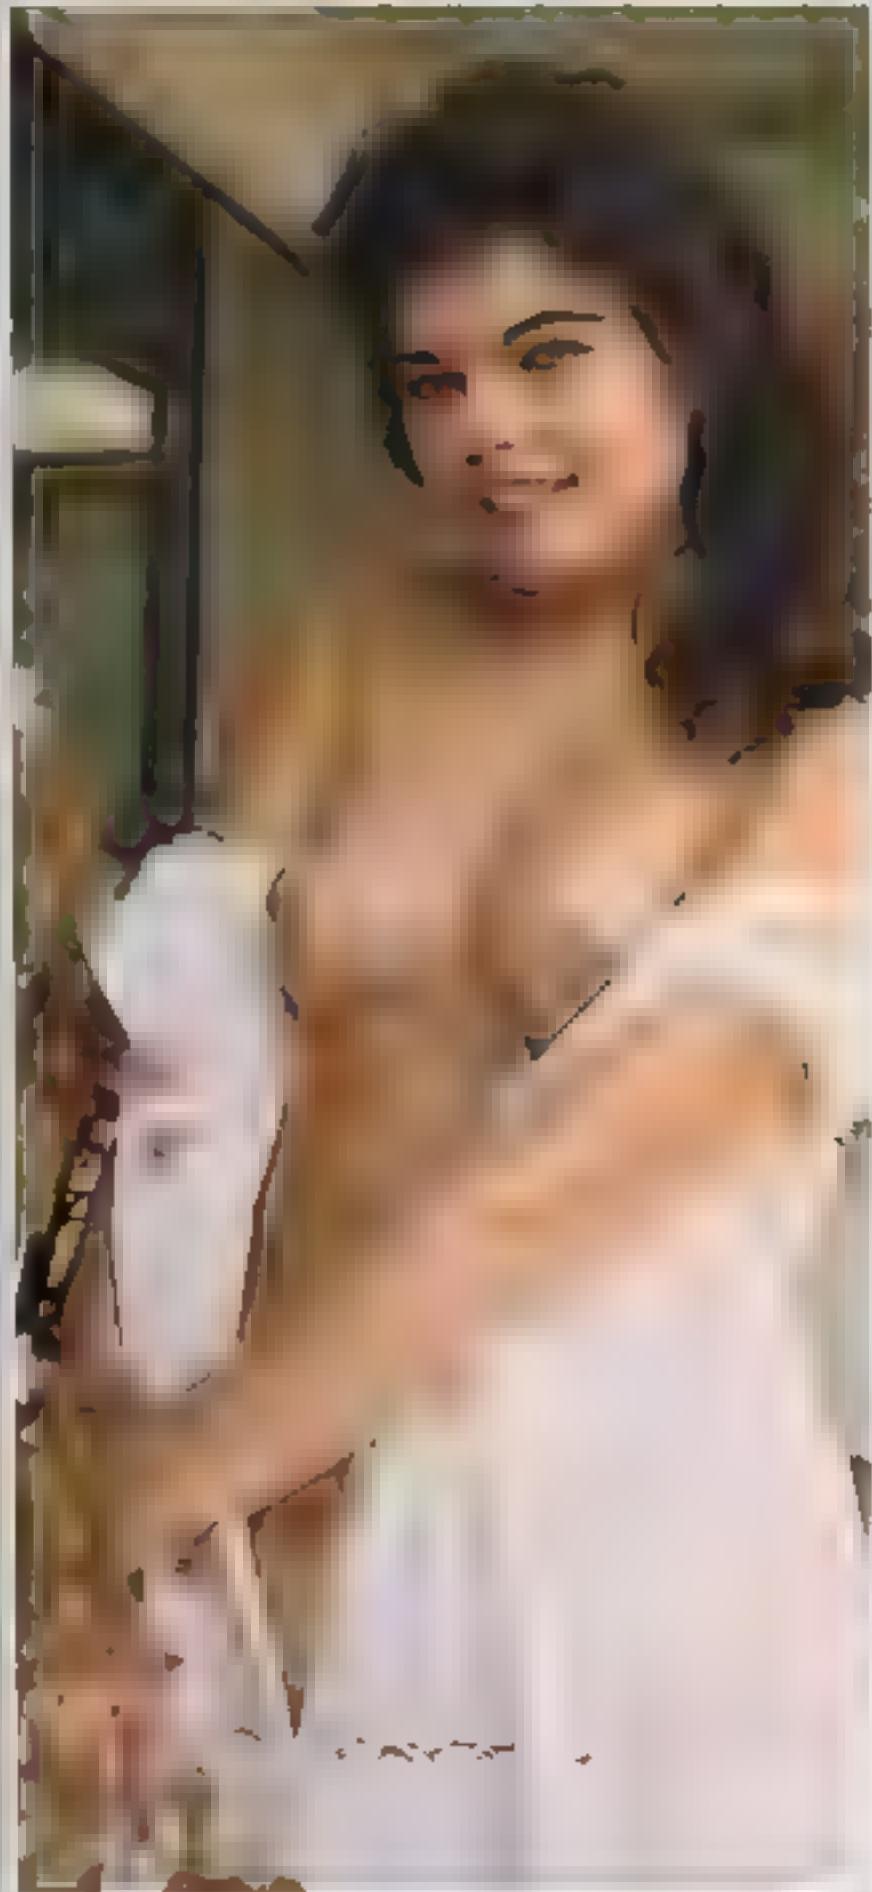

As Lord Byron wrote, "Sleep hath its own world, and a wild realm of wild reality." Zetta Frayle (here and previous spread) has awoken from a fantastic night. She usually isn't one to reveal her dreams in detail, but this morning her bemused expression, body language and tousled blond hair make such confessions unnecessary.

Playmate lingerie is a new look. A look that's soft, elegant, and sophisticated. A look that's a new look.
